March 23, 2021 – New “Go Paperless” Feature Coming to the Commercial Repayment Center Portal (CRCP)

Effective April 5th a new “Go Paperless” feature is being added to the CRCP. This new feature allows the Account Manager to opt into a paperless setting for the account. When the decision is made to opt-in to the paperless functionality, all correspondence will be viewed on the CRCP. Hard copy letters will no longer be mailed. This option will not only reduce the amount of paper that your organization needs to handle, but it also eliminates concerns about delays in receipt that arise when the information is mailed to you.

Using this new feature will allow the Account Manager, Account Designees, and any additional individuals listed by the Account Manager to be notified by e-mail that there is new

correspondence available to view in the CRCP. Please note that those wishing to view the letters in the CRCP must be logged in using multi-factor authentication. Additional details on the new “Go Paperless’ functionality will be available in the April update of the CRCP User Guide.

December 1, 2020 – Coming Soon: Multi-factor Authentication (MFA) on the Commercial Repayment Center Portal (CRCP).

The Centers for Medicare & Medicaid Services (CMS) will be implementing optional MFA services on the CRCP. CMS has adopted Identity Proofing and MFA to provide users with the ability to view unmasked case information. The ID Proofing process requires that you provide information to CMS sufficient to prove that you are the person you claim to be. This process works in conjunction with MFA Services, which uses two or more different authentication factors to verify a user's identity.

Once you complete the process, you can choose whether to use an MFA Credential ID to view previously masked case information on your accounts when you log in to the CRCP. Verified users will also have the ability to:

View letters

Print letters

MFA access will be granted when you:

Successfully complete the ID Proofing process,

Activate at least one Credential ID through the CRCP (text or voice call).

Please note that MFA and the associated ID Proofing process will be optional for CRCP users. If users wish to use the CRCP without going through the MFA process, they may do so but will not have the benefit of viewing letters or unmasked data.

MFA is scheduled to be available beginning on January 11, 2021. Once available, users may start the MFA process from the CRCP home page, by clicking the “Next Step: Getting Started” link displayed in the new Multi-Factor Authentication box.

Updated user guides and training materials will be available on this website and within the CRCP upon implementation.

If you are not yet a registered user of the CRCP and would like to register you may do so at <https://www.cob.cms.hhs.gov/CRCP/>. Select “I Accept” on the Login Warning page and then click Step 1 “PIN Request” at the bottom of the portal home screen to begin the process.

A new report titled The Medicare Secondary Payer Commercial Repayment Center in Fiscal Year 2015 is now available in the Download section of the Reports page.

February 9, 2016 – Commercial Repayment Center Transition of a portion of the Non-Group Health Plan Recovery Workload Status

In October 2015, the Centers for Medicare & Medicaid Services' (CMS) Commercial Repayment Center (CRC) assumed responsibility for the recovery of conditional payments where CMS is pursuing recovery directly from a liability insurer (including a self-insured entity), no-fault insurer or workers' compensation (WC) entity as the identified debtor. The CRC has issued more than 33,000 Conditional Payment Letters (CPLs) and Conditional Payment Notices (CPNs) since the transition. CMS is aware that many insurers and WC entities are awaiting CPLs, CPNs, or demand letters. CMS is actively engaged with the CRC to improve responsiveness to requests for conditional payment information and the handling of correspondence.

December 28, 2015 – Discontinuation of Initial Enrollment Questionnaire (IEQ)

The Initial Enrollment Questionnaire (IEQ), which is used to collect other health insurance information from newly eligible Medicare beneficiaries, is being discontinued. As of January 1, 2016, requests for completion of an IEQ will no longer be included in Medicare's initial enrollment package. Individuals who received an IEQ request prior to January 1, 2016, should still complete their questionnaire via MyMedicare.gov.

December 24, 2015 – Changes to Medicare Claim Payments Where Ongoing Responsibility for Medicals (ORM) is Reported

A new document titled Changes to Medicare Claim Payments Where Ongoing Responsibility for Medicals (ORM) is Report is available for review in the Downloads section below.

December 21, 2015 – Modification of the Medicare Secondary Payer Recovery Portal (MSPRP) for Inclusion of Final Conditional Payment (CP) Process Functionality

As part of the Strengthening Medicare and Repaying Taxpayers Act of 2012 (the SMART Act), the MSPRP has been modified to include Final CP process functionality. This new functionality provides authorized MSPRP users with the option to notify CMS that a recovery case is 120 days (or less) from an anticipated settlement, ensure that relatedness disputes are addressed within 11 business days of receipt of dispute documentation, request a Final Conditional Payment Amount, and obtain a time and date stamped final conditional payment summary document before reaching settlement. Once the Final Conditional Payment has been calculated, this amount will not change as long as:

The case is settled within 3 business days of requesting the Final Conditional Payment Amount, and Settlement information is submitted through the MSPRP within 30 calendar days of requesting the Final Conditional Payment Amount.

A request for a Final Conditional Payment Amount can only be done once per case. If the case is not settled with 3 days and/or the settlement information is not submitted through the MSPRP within 30 calendar days, the Final CP process will be voided. At that time new claims may be added to the case and the CP amount will be modified accordingly. Also, any subsequent disputes will not be held to the 11 day resolution timeframes.

Responsibility for Medicals (ORM) exists. Once the Final CP process has been started on an insurer- debtor case, the following events will occur:

The insurer-debtor case will be closed and the debt will be transferred to a new case where the beneficiary is the identified debtor.

The insurer and their authorized representatives will not be able to work the new beneficiary-debtor case or receive copies of any recovery-related correspondence related to the new beneficiary-debtor case until they obtain and submit an authorization signed by the beneficiary.

November 9, 2015 – Upcoming Updates to the Medicare Secondary Payer Recovery Portal (MSPRP) Modification for Inclusion of Final Conditional Payment (CP) Process Functionality

As part of the Strengthening Medicare and Repaying Taxpayers Act of 2012 (the SMART Act), the MSPRP will be modified to include Final CP process functionality by January 1, 2016. This new functionality will permit authorized MSPRP users to notify CMS that a recovery case is 120 days (or less) from an anticipated settlement and request that the recovery case be a part of the Final CP process.

When the Final CP process is requested, any disputes submitted through the MSPRP will be resolved within 11 business days of receipt of the dispute. Once all disputes have been resolved, and the case is within 3 days of settling, the beneficiary or their authorized representative will be able to request a Final Conditional Payment Amount on the MSPRP. Once calculated, this amount will remain the Final Conditional Payment Amount as long as:

The case is settled within 3 calendar days of requesting the Final Conditional Payment Amount, and Settlement information is submitted through the MSPRP within 30 calendar days of requesting the Final Conditional Payment Amount.

Please continue to visit this website for updated information.

October 26, 2015 – New Document Is Now Available

A New Document titled Frequently Asked Questions about the Commercial Repayment Center Non- Group Health Plan Recovery Workload Transition is now available in the Download section below.

October 5, 2015 – Transition of portion of the Non-Group Health Plan Recovery Workload to the Commercial Repayment Center

As part of the continuing efforts to improve the Coordination of Benefits & Recovery (COB&R) program and claims payment accuracy in Medicare Secondary Payer (MSP) situations, the Centers for Medicare & Medicaid Services (CMS) has transitioned a portion of the Non-Group Health Plan (NGHP) recovery workload from the Benefits Coordination & Recovery Center (BCRC) to its Commercial Repayment Center (CRC). The CRC has assumed responsibility for the recovery of conditional payments where CMS is pursuing recovery directly from a liability insurer (including a self-insured entity), no-fault insurer or

workers' compensation (WC) entity as the identified debtor.

The following should be noted regarding the workload transition:

Continue to work with the contractor from which you received correspondence, either the CRC or BCRC. CMS.gov, User Guides, and Training materials have been updated to reflect the changes.

October 1, 2015 – Digital Accountability and Transparency Act (DATA Act) Changes Now in Effect

On May 9, 2014, the President signed into law the Digital Accountability and Transparency Act (DATA Act). As previously announced, one outcome of his legislation is the reduction of the timeframe for the referral of delinquent debt to the Department of Treasury ("Treasury") for both Non-Group Health Plans (liability (including self-insurance), no-fault, and workers' compensation) and Group Health Plans from 180 to 120 days after the payment is due.

Debtors will continue to be notified of the intent to refer the debt to Treasury's Offset Program for further collection activities, if the debt is not paid within 60 days.

September 1, 2015 – Commercial Repayment Center (CRC) Non-Group Health Plan (NGHP) Recovery Process Workload Transition Webinar Scheduled for September 17, 2015

CMS and the Commercial Repayment Center (CRC) will be presenting a webinar on the upcoming NGHP Recovery process workload transition. The notice for the Webinar is available in the Downloads section below and includes all webinar information including date, time, registration, and log-in information.

Please note, this transition only includes those cases where CMS is pursuing recovery from the liability insurer, no-fault insurer or WC entity directly.

July 21, 2015 – Multi-factor Authentication (MFA) on the Medicare Secondary Payer Recovery Portal (MSPRP) is now available

As part of the Strengthening Medicare and Repaying Taxpayers (SMART) Act, the Centers for Medicare & Medicaid Services (CMS) has implemented optional MFA services which are now available on the MSPRP. MFA is the use of two or more different authentication factors to verify the identity of a user.

Verified users will now have access to view unmasked claims data on the MSPRP.

Non-beneficiaries will still need to have a verified Proof of Representation or Consent to Release authorization to perform actions on cases. Please note that MFA and the associated identity proofing process is optional for MSPRP users. Users may still use the MSPRP without going through the MFA process, but they will not have the benefit of viewing unmasked data.

User guides and training materials have been updated to reflect the new MFA process.

July 14, 2015 – New Report Titled The Medicare Secondary Payer Commercial Repayment Center in Fiscal Year 2014 is now available

A new report titled The Medicare Secondary Payer Commercial Repayment Center in Fiscal Year 2014 is now available in the Download section of the Reports page.

July 1, 2015 – Upcoming Transition of portion of the Non-Group Health Plan Recovery Workload to the Commercial Repayment Center

As part of the continuing efforts to improve the Coordination of Benefits & Recovery (COB&R) program and claims payment accuracy in Medicare Secondary Payer (MSP) situations, the Centers for Medicare & Medicaid Services (CMS) will be transitioning a portion of the Non-

Group Health Plan (NGHP) recovery workload from the Benefits Coordination & Recovery Center (BCRC) to its Commercial Repayment Center (CRC). CMS will also be working closely with its claim processing contractors to make sure that Medicare pays correctly in the MSP situations described below.

Effective October 2015, the CRC will assume responsibility for the recovery of conditional payments where CMS is pursuing recovery directly from a liability insurer (including a self-insured entity), no-fault insurer or workers' compensation (WC) entity as the identified debtor.

The following should be noted regarding the planned workload transition:

Webinars and town halls will be scheduled in the coming months to provide additional information. Effective January 1, 2016, CMS will add an additional limitation to Medicare claims payments where insurers or workers' compensation entities have reported to CMS that they have Ongoing Responsibility for Medicals (ORM).

In situations where an insurer or workers' compensation entity has reported to CMS that it has ongoing responsibility for medicals (ORM) for specific care, CMS' claims processing contractors will use the information provided by the insurer or workers' compensation entity to determine whether Medicare is able to make payment for those claims.

Insurers and workers' compensation entities that notify Medicare that they have ORM are strongly encouraged to report accurate ICD-9 or ICD-10 codes. Medicare's claims processing contractors will use this information to pay accordingly.

June 1, 2015 – Coming Soon: Multi-factor Authentication (MFA) on the Medicare Secondary Payer Recovery Portal (MSPRP)

As part of the Strengthening Medicare and Repaying Taxpayers (SMART) Act, the Centers for Medicare & Medicaid Services (CMS) will be implementing optional MFA services on the MSPRP. MFA is the use of two or more different authentication factors to verify the identity of a user. Verified users will have access to view unmasked claims data on the MSPRP.

Non-beneficiaries will still need to have a verified Proof of Representation or Consent to Release authorization to perform actions on cases. Please note that MFA and the associated identity proofing process will be optional for MSPRP users. If users wish to use the MSPRP without going through the MFA process, they will not have the benefit of viewing unmasked data.

MFA is scheduled to be available beginning on July 13, 2015. Updated user guides and training materials will be available on this website and within the MSPRP upon implementation.
