¹The Original Medicare Part B enrollee count in 2014 was 33,189,779.

²Includes laboratory, pharmacy, rehabilitation, and treatment or observation room services. Not all types of services within outpatient clinic hold payment amounts.

NOTES: Data represent outpatient facility utilization and payments; data do not include claims from physicians or ambulatory surgical centers. Counts and amounts may not sum to totals because of rounding. The 'persons with utilization' counts do not add to the totals because beneficiaries may have had visits in more than one type of facility and type of service during the reported year.
