## FY 2023 Hospital Wage Index Development Timetable
(May 2021 through October 2022)

<table>
<thead>
<tr>
<th>Date</th>
<th>Task</th>
</tr>
</thead>
<tbody>
<tr>
<td>May 24, 2021</td>
<td>Release of preliminary FY 2023 unaudited FY 2019 Worksheet S-3 wage data file on CMS website. The FY 2019 wage data file includes Worksheet S-3 wage data from cost reports submitted to HCRIS through approximately May 19, 2021. Notice sent from CMS to MACs regarding the September 2, 2021, deadline for hospitals to request revisions to the wage index and occupational mix data as reflected in the preliminary files. Notice must be forwarded by the MACs to hospitals they service to alert hospitals to the availability of the preliminary wage data file for their review and to inform hospitals of their opportunity to request revisions.</td>
</tr>
<tr>
<td>September 2, 2021</td>
<td>Deadline for hospitals to request revisions to their Worksheet S-3 wage data and CY 2019 occupational mix data as included in the wage preliminary PUFs, and to provide documentation to support the request. <strong>MACs must receive the revision requests and supporting documentation by this date.</strong> MACs will have approximately 10 weeks to complete their reviews, make determinations, and transmit revised data to CMS’s Division of Acute Care (DAC).</td>
</tr>
<tr>
<td>November 4, 2021</td>
<td>Deadline for MACs to notify State hospital associations regarding hospitals that fail to respond to issues raised during the desk reviews. The purpose of the letter is to inform the State association and its member hospitals that a hospital’s failure to respond to matters raised by the MAC can result in lowering an area’s wage index value and, therefore, lower Medicare payments for all hospitals in the area.</td>
</tr>
<tr>
<td>November 15, 2021</td>
<td>Deadline for MACs to complete all desk reviews for hospital wage data and transmit revised Worksheet S-3 wage data and occupational mix data to DAC. Worksheet S-3 wage data must be sent to DAC in electronic format (HCRIS hdt format). Occupational mix data must be sent to DAC on the Excel spreadsheet provided by DAC for specific use by MACs.</td>
</tr>
<tr>
<td>January 28, 2022</td>
<td>Release of revised FY 2023 wage index and occupational mix files as PUFs on the CMS Web site. These data will have been desk</td>
</tr>
</tbody>
</table>
reviewed and verified by the MACs before being published. Also, a file including each urban and rural area’s average hourly wages for the FYs 2022 (final) and 2023 (preliminary) wage indexes will be provided on the CMS Web site.

**February 15, 2022**

Deadline for hospitals to submit requests (including supporting documentation) for: 1) corrections to errors in the January PUFs due to CMS or MAC mishandling of the wage index data, or 2) revisions of desk review adjustments to their wage index data as included in the January PUFs (and to provide documentation to support the request). **MACs must receive the requests and supporting documentation by this date.** No new requests for wage index and occupational mix data revisions will be accepted by the MACs at this point, as it is too late in the process for MACs to handle data that is new in a timely manner.

**March 18, 2022**

Deadline for the following:

1. MACs to transmit final revised wage index data (in HCRIS hdt format) to DAC for inclusion in the final wage index. Worksheet S-3 wage data must be transmitted in HCRIS hdt format. Occupational mix data must be sent to DAC on the electronic Excel spreadsheet provided by DAC for specific use by MACs. All wage index data revisions must be transmitted to DAC by this date.

2. MACs must also send written notification to hospitals regarding the hospitals’ February 15, 2022 correction/revision requests by this date.

**April 1, 2022**

Deadline for hospitals to appeal MAC determinations and request CMS’ intervention in cases where the hospital disagrees with the MAC’s determination. It should be noted that during this review, CMS does not consider issues such as the adequacy of a hospital’s supporting documentation, as CMS believes that the MACs are generally in the best position to make evaluations regarding the appropriateness of these types of issues (which should have been resolved earlier in the process). The request must include all correspondence between the hospital and MAC that documents the hospital’s attempt to resolve the dispute earlier in the process. Data that was incorrect in the preliminary or January wage index data PUFs, but for which no correction request was received by the February 15, 2022 deadline, will not be considered for correction at this stage.

**Requests must be received by CMS by this date. A copy of the appeal with complete documentation shall be sent to the MAC.**

**Hospitals shall submit the appeal with complete documentation supporting their request electronically to**
Appeals submitted via fax will NOT be accepted. Electronic copies (including all supporting documentation) shall preferably be sent in PDF files to ensure compatibility with CMS software. Spreadsheets shall be sent in Excel.

Only if the supporting documentation files are too large to be sent through email, then hospitals may send a complete hard copy with supporting documentation by the April 1, 2022 deadline to CMS Central Office at:

Centers for Medicare & Medicaid Services
c/o Wage Index, CMM/HAPG/DAC Room
C4-08-06
7500 Security Boulevard
Baltimore, Maryland 21244-1850

The hospital must still send an electronic copy of the appeal letter, and most pertinent documents (spreadsheets and/or pdf files) to wageindexreview@cms.hhs.gov and note in the email that complete supporting documentation will be sent via hard copy and USB drive.

NEW: While appeals must still be submitted via email to wageindexreview@cms.hhs.gov, hospitals may also submit appeals for the FY 2023 wage index cycle via the Wage Index Appeals (WIA) module in the Medicare Electronic Application Request Information System (MEARIS) at https://mearis.cms.gov/. Hospitals are encouraged to test this platform for submitting appeals and submit user feedback as directed on the site.

April 1, 2022
Deadline for hospitals to dispute data corrections made by CMS of which the hospital is notified after the January 28, 2022 PUF and at least 14 calendar days prior to April 1, 2022 (i.e., March 18, 2022), that do not arise from a hospital’s request for revisions. CMS and the MACs must receive requests with complete documentation by this date via email to the addresses above. Do NOT submit a request via fax or MEARIS for this dispute.

April/May 2022
Approximate date proposed rule will be published; includes proposed wage index, which is calculated based on the revised wage index data through the end of February; 60-day public comment period and 45-day withdrawal deadline for hospitals applying for geographic reclassification.

Early April 2022
Notice sent from CMS to each MAC regarding the April 29, 2022, release of the final FY 2022 wage index data PUFs and the May 27, 2022, deadline for hospitals to request corrections to the wage and
Notice must be forwarded by MACs to hospitals they service to alert hospitals to the availability of the final wage index and occupational mix data files for their review in the April 29, 2022 PUF, and to inform hospitals that this will be their last opportunity to request corrections to errors in the final data. Changes to data will be limited to situations involving errors by CMS or the MAC that the hospital could not have known about before review of the final April PUFs. Data that was incorrect in the preliminary or January wage index data PUFs, but for which no correction request was received by the February 15, 2022 deadline, will not be considered for correction at this stage.

April 29, 2022
Release of final FY 2023 wage index and occupational mix data PUFs on CMS Web page. Hospitals will have approximately 1 month to verify their data and submit correction requests to both CMS and their MAC to correct errors due to CMS or MAC mishandling of the final wage and occupational mix data.

May 27, 2022
Deadline for hospitals to submit correction requests to both CMS and their MAC to correct errors due to CMS or MAC mishandling of the final wage and occupational mix data as posted in the April 29, 2022 PUF. Changes to data will be limited to situations involving errors by CMS or the MAC that the hospital could not have known about before review of the final April PUFs. CMS and the MACs must receive all requests by this date via email to the addresses above.

NEW: While appeals must still be submitted via email to wageindexreview@cms.hhs.gov, hospitals may also submit appeals for the FY 2023 wage index cycle via the Wage Index Appeals (WIA) module in the Medicare Electronic Application Request Information System (MEARIS) at https://mearis.cms.gov. Hospitals are encouraged to test this platform for submitting appeals and submit user feedback as directed on the site.

NOTE: CMS emphasizes that data that were incorrect in the preliminary or January wage index data PUFs, but for which no correction request was received by the February 15, 2022, deadline, will not be changed at this stage for inclusion in the wage index. In general, a hospital disputing an adjustment is required to request a correction by the first applicable deadline; hospitals that do not meet the procedural deadlines set forth earlier will not be permitted to challenge later, before the PRRB, the failure of CMS to make a requested data revision. Each correction request must include all information and supporting documentation needed for CMS and the MAC to determine whether or not the hospital’s request meets the criteria for a correction to their data at this point in the wage index development. The MACs and DAC will review each request upon receipt and consult to
determine whether or not the request qualifies for correction of the final wage or occupational mix data.

**May 27, 2022:** Deadline for hospitals to dispute data corrections made by CMS of which the hospital is notified on or after 13 calendar days prior to April 1, 2022 (i.e., March 19, 2022), and at least 14 calendar days prior to May 27, 2022 (i.e., May 13, 2022), that do not arise from a hospital’s request for revisions. (Data corrections made by CMS of which a hospital is notified on or after 13 calendar days prior to May 27, 2022 (i.e., May 14, 2022) may be appealed to the Provider Reimbursement Review Board (PRRB)). CMS and the MACs must receive requests with complete documentation by this date via email to the addresses above. Do **NOT** submit a request via fax or MEARIS for this dispute.

**August 1, 2022**
Approximate date for publication of the FY 2023 final rule; wage index includes final wage index data corrections.

**October 1, 2022**
Effective date of FY 2023 wage index.
