1. Introduction

The purpose of this document is to inform Submitters of upcoming changes to the Health Insurance Portability and Accountability Act (HIPAA) Eligibility Transaction System (HETS) 270/271 application that will be implemented with the HETS2025-3 release.

2. Overview of Release

The HETS2025-3 release introduces potential changes to the HETS 270 request and HETS 271 response.

The following section documents planned HETS2025-3 changes.

3. Summary of the Impact on Trading Partners

3.1 Support additional Colorectal Cancer Screening (COLO) preventive HCPCS codes

HETS currently supports five preventive Colorectal Cancer Screening (COLO) service HCPCS codes (81528, G0104, G0105, G0121, and G0327) on the 270 request. Following this release and effective October 2025, HETS will support additional COLO preventive service HCPCS codes 0464U and 74263. This will bring the total number of supported COLO preventive service HCPCS codes to seven (0464U, 74263, 81528, G0104, G0105, G0121, and G0327).

HETS returns the next eligible date for COLO HCPCS codes; the newly supported 0464U and 74263 HCPCS codes will be handled in the same manner. If the technical and professional components of a HCPCS code have different next eligible dates then the 271 response returns a separate 2110C loop for each date.

Note that the scheduled date for the related CWF production deployment is currently October 6, 2025; HETS will not return the next eligible date for HCPCS 0464U or 74263 on the 271 response until after the CWF data feed is updated on October 6, 2025.

Following is an example of the updated 271 response adding the new 0464U and 74263 COLO HCPCS code alongside existing HCPCS code G0327 -- new components are **bolded & italicized**:

Financial Information

EB*C***MB**23*0*****HC|***0464U***~ (EB07 = Waived Deductible for 0464U)

Next Eligible Date

EB*D***MB*****HC|**0464U**~ (EB13-2 = COLO HCPCS code 0464U)
DTP*348*D8*20230515~ (DTP03 = Next Eligible Date)
EB*D***MB*****HC|**74263**~ (EB13-2 = COLO HCPCS code 74263)
DTP*348*D8*20251101~ (DTP03 = Next Eligible Date)
EB*D***MB*****HC|G0327~ (EB13-2 = COLO HCPCS Code G0327)
DTP*348*D8*20230515~ (DTP03 = Next Eligible Date)

All other base Medicare Preventive HCPCS Codes Which Return Next Eligible Dates Business Rules remain unchanged. Refer to [Section 7.10.1 of the HETS 270/271 Companion Guide](#) for additional information on current HETS COLO handling.

3.2 Support additional Hepatitis C Virus Screening (HCV) preventive HCPCS code

HETS currently supports one preventive Hepatitis C Virus screening (HCV) HCPCS code (G0472) on the 270 request. Following this release and effective October 2025, HETS will support an additional HCV preventive service HCPCS code: G0567. This will bring the total number of supported HCV preventive HCPCS codes to two (G0472 and G0567).

HETS returns the most recent instance of prior service history for HCV HCPCS code G0472; the newly supported G0567 HCPCS code will be handled in the same manner. HETS will return only the most recent instance of service for HCV HCPCS codes. If no HCV screening information is on file, then no prior service information will be returned.

Note that the scheduled date for the related CWF production deployment is currently October 6, 2025; HETS will not return any prior service history for HCPCS G0567 on the 271 response until after the CWF data feed is updated on October 6, 2025.

Example of the updated 271 response adding the new G0567 HCV HCPCS code alongside existing HCPCS code G0472 -- new components are ***bolded & italicized***:

Financial Information

EB*C***MB**23*0*****HC|G0472~ (EB07 = Waived Deductible for G0472)
DTP*292*D8*20251015~ (DTP03 = System Date)
EB*C***MB**23*0*****HC|***G0567***~ (EB07 = Waived Deductible for G0567)
DTP*292*D8*20251015~ (DTP03 = System Date)
EB*A***MB**27*0*****HC|G0472~ (EB07 = Waived Coinsurance for G0472)
DTP*292*D8*20251015~ (DTP03 = System Date)
EB*A***MB**27*0*****HC|***G0567***~ (EB07 = Waived Coinsurance for G0567)
DTP*292*D8*20251015~ (DTP03 = System Date)

Prior Service History

DTP*472*D8*20250102~ (DTP03 = Most Recent Date of Service for HCPCS Code G0472)
LS*2120~
NM1*1P*2*****XX*1234567893~ (NM109 = rendering NPI for HCPCS G0472)

LE*2120~
 EB*D***MB*****HC|**G0567**~ (EB13-2 = HCV HCPCS Code G0567)
 DTP*472*D8*20240103~ (DTP03 = Most Recent Date of Service for HCPCS Code G0567)
 LS*2120~
 NM1*1P*2*****XX*1234567893~ (NM109 = rendering NPI for HCPCS G0567)
 LE*2120~

All other base Medicare Preventive HCPCS Codes Which Return Most Recent Service History Only Business Rules remain unchanged. Refer to [Section 7.10.2.1 of the HETS 270/271 Companion Guide](#) for additional information on current HETS HCV handling.

3.3 Support additional HIV/PReP preventive HCPCS codes; modify HIV/PReP 271 response

HETS currently supports HCPCS code G0475 for HIV Infection Screening (HIV). Effective with this release, HETS will additionally support six new HIV / [PRe-exposure Prophylaxis \(PReP\)](#) codes G0011, G0013, G0432, G0433, G0435, and 80081 on the 270 request. This will bring the total number of supported HIV/PReP preventive HCPCS codes to seven (G0011, G0013, G0432, G0433, G0435, G0475, and 80081).

For 270 inquiries for Medicare Beneficiaries with active Part B entitlement, no Date of Death on file, and where a supported HIV HCPCS code is included in the request, HETS currently responds with next eligible dates for HIV services. Following this release, HETS will cease sending next eligible dates for HIV/PReP services. HETS will additionally update the 271 response for HIV/PReP HCPCS codes to instead return prior service history. HETS will return only the most recent screening information, including date of service and NPI, for each supported HIV/PReP HCPCS code submitted on the 270. For prior outpatient service history, HETS would return the provider NPI on the 271 response. For prior Part B service history, HETS would return the rendering NPI on the 271 response.

If the Medicare Beneficiary does not have any prior service history for HIV/PReP, then no financial or prior usage information will be returned in the 271 response.

An example of the updated 271 response answering a HIV/PReP request follows – new components are ***bolded & italicized***.
