Expanded Model Reports Available in CY 2024

- **Interim Performance Report (IPR):** eligible Medicare-certified HHAs will receive four (4) IPRs per year. Preliminary versions of the IPR will be available quarterly in January, April, July, and October. See the following resource for information about requesting a recalculation: [Expanded HHVBP Model IPR Recalculation Instructions](#).
- **Annual Performance Report (APR):** shows performance data and the adjusted payment percentage (APP) that will apply to the HHA's Medicare FFS claims for the respective payment year. For the CY 2023 performance year/CY 2025 payment year, eligible Medicare-certified HHAs will receive a Preview APR in August 2024. If an HHA believes there is an error, the HHA may submit a recalculation request. If an HHA disagrees with the results of CMS's recalculation decision, reflected in their Preliminary APR, the HHA may submit a reconsideration request. Upon receiving a response to the reconsideration request, an HHA may request CMS Administrator review of that reconsideration decision.
