Rulemaking Intent Announcement

- On Jan. 29, CMS announced its intent to engage in rulemaking this spring
- CMS is considering the following changes:
 - Shortening 2015 reporting period to 90 days
 - Realigning hospital reporting to calendar year
 - Modifying other aspects of programs to match goals, reduce complexity, lessen reporting burden
- See Dr. Conway's blog on <http://blog.cms.gov/>

How to Read Performance Scores

Imagine all the providers that attested for a measure standing in line from lowest to highest score...

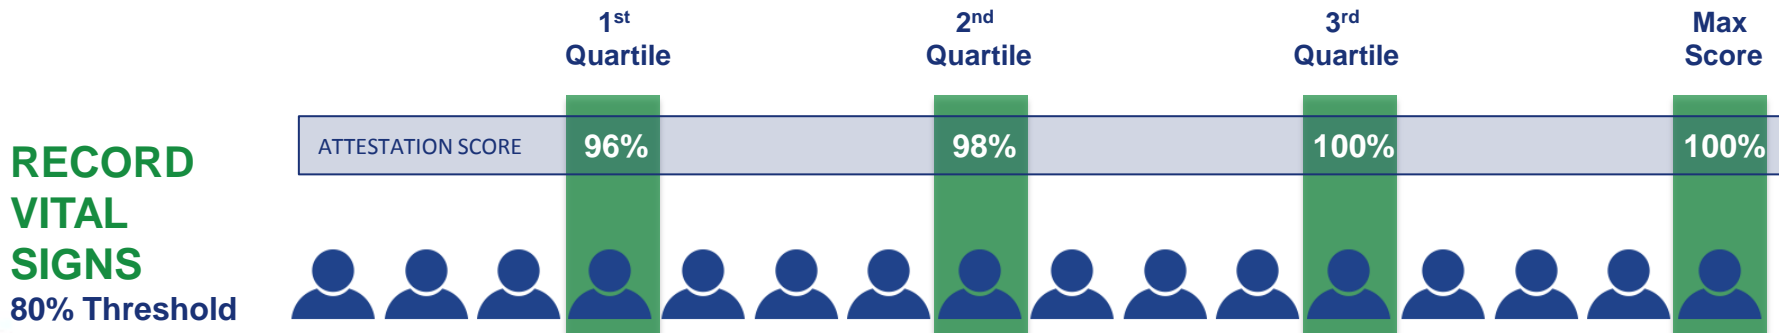

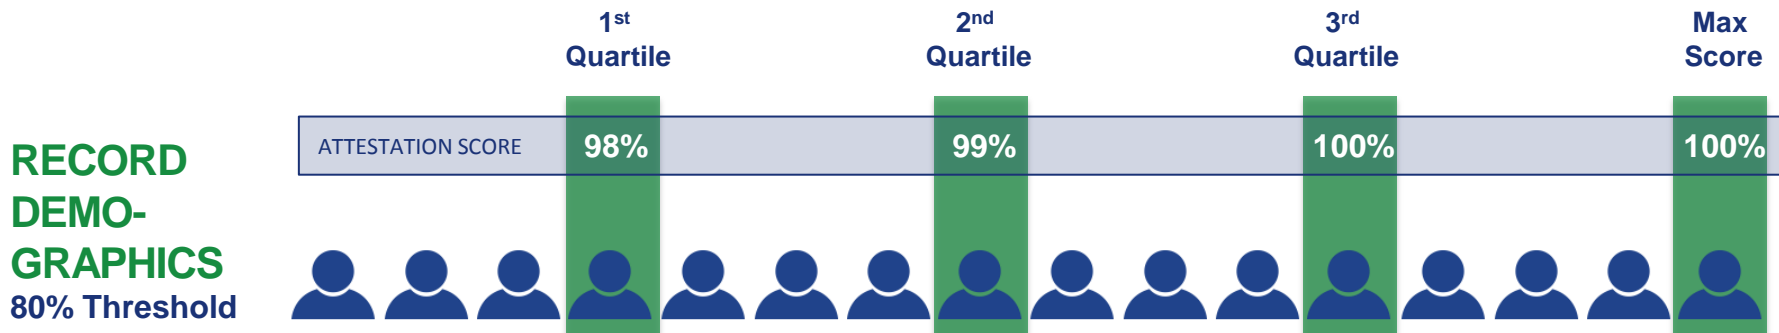

- The attester at position (a) has the lowest score; the one at position (b) has the highest.
- We then look at four points to give an idea of score ranges: the attester at the “top” of the first 25% (1st Quartile), the one at 50% (2nd Quartile or “median”), the one at 75% (3rd Quartile) and the attester with the best possible score (“Max Score”).
- Each measure has a passing score, or “threshold”. In the example above, it is 30%.
- Looking at the first sample point – 1st Quartile – we see the attester has scored 77% – well over the threshold to “pass” the measure. All scores beyond that – 2nd Quartile, 3rd Quartile and Max Score – also pass – again by large margins.
