

HOSPITAL VALUE-BASED PURCHASING PROGRAM (HVBP)

MONITORING & EVALUATION STRATEGIES

TECHNICAL EXPERT PANEL (TEP)

Prepared by

Telligen

A project for the Centers for Medicare & Medicaid Services

Introduction

The Centers for Medicare & Medicaid Services (CMS) has contracted with Telligen to assist and support CMS to conduct monitoring & evaluation plans and strategies for the HVBP program. The purposes of the Panel are to provide recommendation and feedback on the proposed program evaluation and statistical methods and statistical strategies, identify contemporaneous issues related to the HVBP program, advise CMS on areas for additional in-depth studies and to assist in interpreting the findings relative to the stakeholder environment.

A TEP is a group of stakeholders and experts who provide technical input to the contractor and CMS. Convening the TEP is one important step in the process to develop an effective monitoring and evaluation plan for the HVBP program. It provides the opportunity to receive multi-stakeholders input early in the process.

The HVBP TEP membership is comprised of individuals with the following areas of expertise and perspectives:

- Knowledge in HVBP
- Experience in hospital settings
- Experience with quality measures
- Experience with payment system
- Experience in health system research
- Quality Improvement
- Consumer perspective
- Provider perspective
- Clinical perspective
- Methodological expertise

Technical Expert Panel Members

TEP Member	Organizational Affiliation	Biography
Anne-Marie Audet, MD, MSc, SM, FACP	Vice President, Health System Quality & Efficiency The Commonwealth Fund	Dr. Audet has led statewide and regional collaboratives in Massachusetts that targeted implementation of evidence-based practices to improve patient outcomes.
Jerry Cromwell, PhD	Senior Fellow in Health Economics RTI International	Dr. Cromwell has devoted most of his 40 year career to analyzing hospital industry cost structures, competition, and public rate-setting programs. He has led or participated in more than 75 CMS funded studies.
Beth Feldpush, DrPH, MPH	Vice President, Policy & Advocacy National Association of Public Hospitals & Health Systems	Dr. Feldpush has led AHA's work on value-based purchasing and other delivery system reform issues.
Irene Fraser, PhD	Director, Center for Delivery, Organization, & Markets Agency for Healthcare Research & Quality (AHRQ)	Dr. Fraser's current work is on improving the quality and value of health care by improving the organization, structure, and financing of health care organizations and markets.

TEP Member	Organizational Affiliation	Biography
