ICD-10 Documentation and Coding Concepts Webcast: Obstetrics and Gynecology

The Centers for Medicare & Medicaid Services (CMS) invites you to view a newly released webcast on ICD-10 documentation and coding concepts for obstetrics and gynecology.

To view the webcast please visit cms.gov/ICD10 for a link to “Road to 10,” then click on the “Webcast” tab located in the left-hand navigation bar.

An AHIMA-certified coder presents on the webcast, which focuses on unique ICD-10 clinical documentation needs and hot topics for obstetrics and gynecology:

- Physician perspective/clinical impact of ICD-10
- Documentation requirements for certain conditions
- Documentation changes and new concepts
- Use of "unspecified" codes in ICD-10

CMS will also offer another webinar in the “Road to 10” series on family practice and internal medicine that will follow the same outline and objectives.

Webcasts for orthopedics, cardiology, and pediatrics are already available.

Stay tuned for updates on when new webcasts are posted!
