CMS Releases ICD-10 Checklists and Timelines

To help you prepare for ICD-10, CMS has released new [checklists and timelines](#) for small and medium provider practices, large provider practices, small hospitals, and payers. These resources are designed to give you a high-level understanding of what the ICD-10 transition requires and how your ICD-10 preparations compare with recommended timeframes.

Checklists: The [checklists](#) offer easy-to-understand lists of tasks that CMS recommends completing before the October 1, 2014, ICD-10 deadline. Each task also includes an estimated timeframe, allowing you to plan based on your current progress. Depending on your organization, you may be able perform some of the tasks on a compressed timeline or at the same time as other tasks.

Timelines: The [timelines](#) are an at-a-glance resource for getting a sense of how your transition is moving forward. The timelines provide a visual guide to key transition activities by phase.

You can use the [checklists and timelines](#) to identify where you need to focus your efforts. Then you can consult the more in-depth ICD-10 resources available on the CMS website.
