Ask about their readiness and testing opportunities

- **[Call your vendors](#) to confirm the ICD-10 readiness of your practice's systems**
- Confirm that the health plans, clearinghouses, and third-party billing services you work with are ICD-10 ready
- Ask vendors, health plans, clearinghouses, and third-party billers about testing opportunities

Tips

- You can use [forms available in the Road to 10's Template Library](#) to guide discussions with vendors, health plans, clearinghouses, and billing services
- Double check that you've identified all systems that use ICD codes—e.g., practice management systems, electronic health record (EHR) products—when contacting vendors
- Update contracts with vendors and health plans as needed
- Transition costs for small medical practices could be substantially lower than projected earlier:
 - Many EHR vendors are including ICD-10 in their systems or upgrades—at little or no cost to their customers
 - Software and systems costs for ICD-10 could be minimal for many providers
