Test inside your practice and with trading partners

- **Verify that you can use your ICD-10-ready systems to:**
 - **Generate a claim**
 - Perform eligibility and benefits verification
 - Schedule an office visit
 - Schedule an outpatient procedure
 - Prepare to submit quality data
 - Update a patient's history and problems
 - Code a patient encounter
- Test your systems with partners like vendors, clearinghouses, billing services, and health plans; focus on those partners that you work with most often
 - Medicare providers can conduct [acknowledgement testing](#) with their Medicare Administrative Contractors (MACs) until the October 1 compliance date
- Explore alternate ways to submit claims to health plans if you think your systems will not be ready for ICD-10 by Oct 1:
 - For Medicare providers, options include:
 - Free billing software available from every [MAC website](#)
 - Part B claims submission by online provider portal (in about ½ of MAC jurisdictions)
 - Paper claims for providers who meet [Administrative Simplification Compliance Act Waiver](#) requirements
 - **Each of these options requires you to code in ICD-10**
 - Ask other health plans you work with about the options they offer

Tips

- Your clearinghouses and billing services can conduct Medicare acknowledgement testing on your behalf
- Many major health plans report that they have portals or other options in place for providers who cannot submit ICD-10 claims electronically
- If you think you might need to use an alternate claims submission method for Medicare, get started now
 - Allow time for you and your staff to complete free training on billing software or portals before October 1
 - You must register for each MAC portal that you use
- If you are eligible to submit [paper claims for Medicare](#) and wish to do so, order [CMS 1500 forms from the Government Publishing Office or your office](#) supply store
 - Photocopies cannot be used because they cannot be scanned correctly
