Your file Reference Number: 594580

Issue: We have multiple batch attestation files, from multiple different clinic offices, which have been stuck in a "Not Processed" mode. Some of these batches are over a week old, while others are only a day or two old.

Over this time period, we have had a number of other successful submissions from other clinics. We have placed multiple calls on the issue.

Per instructions on today's call, we are submitting this request for higher level support. As requested, this document lists the batches currently not processed, with the submitter user ID and Group NPI associated with each.

Thank you for your assistance.

Jay R. Fisher
