Discarded Drugs and Biologicals – JW Modifier and JZ Modifier Policy
HCPCS Codes

The billing and payment codes (Healthcare Common Procedure Coding System (HCPCS) codes) that have been identified as having only single-dose containers assigned to the code. Therefore, the JW and JZ modifier policy may apply depending on the setting of use. The list is not an all-inclusive list of codes that are subject to the modifier policy and will be updated approximately semi-annually with newly identified codes.

The current list of codes is comprised of all codes with reported discarded amounts based on the JW modifier in the calendar year 2022. Codes with 1 or more multiple-use containers assigned to it are excluded from the list. The range of percentage of discarded amounts from this list for the calendar year 2022 range from 0.2 – 68.5%.

For more information, see the JW Modifier and JZ Modifier Policy FAQ at <https://www.cms.gov/medicare/medicare-fee-for-service-payment/hospitaloutpatientpps/downloads/jw-modifier-faqs.pdf>.
