Issue ID	Problem	Resolution	Status
09	Per revisions to the guidance for the D0150 and D0160 items, the dash will no longer be a valid value for the D0150 Symptom Frequency items.	The dash [-] will be removed as an allowed value for the following items: D0150A2, D0150B2, D0150C2, D0150D2, D0150E2, D0150F2, D0150G2, D0150H2, D0150I2.	These changes will be made in the next version of the LTCH Data Submission Specs. They will be implemented in production for the upcoming iQIES release on 10/01/2022.
10	Edit -3900 reads as follows: A dash (-) submitted in this item may result in a payment reduction for your facility of two percentage points for the affected payment determination. Since the dash will no longer be a valid value for the D0150 Symptom Frequency items, these items no longer apply to this edit.	The mappings of edit -3900 to the following items will be deleted: D0150A2, D0150B2, D0150C2, D0150D2, D0150E2, D0150F2, D0150G2, D0150H2, D0150I2.	These changes will be made in the next version of the LTCH Data Submission Specs. They will be implemented in production for the upcoming iQIES release on 10/01/2022.
11	Edit -3993 currently reads as follows: (a) If N0415Z1=[1], then the following items must equal [0]: N0415A1, N0415E1, N0415F1, N0415H1, N0415I1, N0415J1. (b) If N0415Z1=[0], then at least one of the following active items must equal [1]: N0415A1, N0415E1, N0415F1, N0415H1, N0415I1, N0415J1. (c) If N0415Z1=[-], then at least one of the following active items must equal [-], and the remaining items must equal [0,-]: N0415A1, N0415E1, N0415F1, N0415H1, N0415I1, N0415J1. The guidance for the dash [-] on the N0415 items is that it can be used as needed without affecting other items. Therefore, subedit c will be removed.	Edit -3993 will be revised as follows: (a) If N0415Z1=[1], then the following items must equal [0]: N0415A1, N0415E1, N0415F1, N0415H1, N0415I1, N0415J1. (b) If N0415Z1=[0], then at least one of the following active items must equal [1]: N0415A1, N0415E1, N0415F1, N0415H1, N0415I1, N0415J1. Subedit c will be deleted.	This change will be made in the next version of the LTCH Data Submission Specs. It will be implemented in production for the upcoming iQIES release on 10/01/2022.

(b) If O0110C1C=[1], then at least one active item from O0110C2C through O0110C4C must equal [1]. (c) If O0110C1C=[-], then at least one active item from O0110C2C through O0110C4C must equal [-], and the remaining items must equal [0,-]. <p>Subedits b and c are not consistent with the other similar O0110 edits and must be corrected.</p>	<p>Edit -3999 will be revised to read as follows:</p> <ul style="list-style-type: none"> (a) If O0110C1C=[0], then all active items from O0110C2C through O0110C4C must equal [0]. 16	The dash (-) is no longer a valid value for D0160. Therefore, it needs to be removed from the list of valid values for D0160. As a result, D0160 will no longer be mapped to edit -3900, which only applies to items where dash is allowed.	The valid values for D0160 will be [00-27, 99, ^]. The mapping of item D0160 to edit -3900 will be removed.	These changes will be made in the next version of the LTCH Data Submission Specs. They will be implemented in production for the upcoming iQIES release on 10/01/2023, and will be retroactive to the 10/01/2022 release.
17	Item H0350 is no longer part of the LTCH APU table. Therefore, it should not get the payment reduction warning edit -3900.	The mapping of item H0350 to edit -3900 will be deleted.	This change will be made in the next version of the LTCH Data Submission Specs. This will be implemented in production for the upcoming iQIES release on 10/01/2023.
18	The complete edit -3958 was not shown in the Section GG Data Specification PDF for items GG0170J1 and GG0170K1. However, the complete edit was shown for item GG0170L1.	<p>This is a formatting issue for the Section GG Data Specification PDF. The complete edit is present in the Microsoft Access data dictionary. It reads as follows:</p> <p>(a) If GG0170I1 = [07,09,10,88], then the following items must equal [^]: GG0170J1, GG0170K1, GG0170L1.</p> <p>(b) If GG0170I1 = [01,02,03,04,05,06], then the following items must not equal [^]: GG0170J1, GG0170K1, GG0170L1.</p> <p>(c) If GG0170I1 = [-], then the following items must equal [-]: GG0170J1, GG0170K1, GG0170L1.</p>	This correction will be made in the next complete published version of the LTCH Data Submission Specs.
