

Medicare Open Enrollment is here

Now is the time to compare your current coverage to all your choices for 2022, and select the plan that best fits your health care needs. Medicare's Open Enrollment period gives everyone with Medicare the opportunity to make changes to their health plans or prescription drug plans for coverage beginning January 1, 2022. But don't delay, the Open Enrollment period ends on December 7.

Why compare plans for next year?

Medicare plans change from year-to-year, even your current plan may be changing. Not all plans have the same benefits and out-of-pocket costs. By comparing all your options, you could save money, find better coverage, or both. Review your current plan, costs, and health needs, then go to **Medicare.gov/plan-compare**.

The Plan Finder at Medicare.gov makes comparing plans easier

With this useful tool you can do a side-by-side comparison of plan coverage, costs, and quality ratings to help you more easily see the differences between plans and feel confident in your choice. If you choose a new plan for 2022, you can enroll right there. Current coverage still meets your needs best? Then, you don't have to do anything.
