

# Medicare Promoting Interoperability PROGRAM

## MEDICARE PROMOTING INTEROPERABILITY PROGRAM HARDSHIP EXCEPTION FACT SHEET

We understand that there may be circumstances out of your control that make it difficult for you to meet the Medicare Promoting Interoperability Program requirements. We provide the opportunity to apply for Hardship Exceptions for the Medicare Promoting Interoperability Program.

### What Exceptions Can I Apply For?

Eligible hospitals and critical access hospitals (CAHs) can apply for the Medicare Promoting Interoperability Program Hardship Exception.

### Medicare Promoting Interoperability Program Hardship Exception Overview

For the calendar year 2022, the 2015 Edition certified electronic health record technology (CEHRT) is required for the Medicare Promoting Interoperability Program. Eligible hospitals and CAHs may be exempt from a Medicare downward payment adjustment if they can show that compliance with the requirement for being a meaningful EHR user would result in a significant hardship. Simply lacking CEHRT does not qualify an eligible hospital or CAH for a Hardship Exception.

To be considered for an exception (to avoid a downward payment adjustment), eligible hospitals and CAHs must complete and submit a Hardship Exception [application](#). If approved, the Hardship Exception is valid for only one payment adjustment year. Eligible hospitals and CAHs would need to submit a new application for subsequent years and ***no eligible hospital or CAH can be granted more than five exceptions.***

Eligible hospitals and CAHs may submit a Medicare Promoting Interoperability Program Hardship Exception application citing one of the following specified reasons for review and approval:

- Using decertified EHR technology
- Insufficient internet connectivity
- Extreme and uncontrollable circumstances

**The application period for calendar year 2022 closes on July 31, 2023 for eligible hospitals and September 30, 2023 for CAHs.**

## How Do I Apply?

We have gone paperless for the Medicare Promoting Interoperability Program Hardship Exception application, and you may now electronically submit hardship applications [here](#).

If an electronic submission is not possible, you may contact the CCSQ Service Center and work with a representative to verbally submit an application at 1 (866) 288-8912. Applications are subject to annual renewal.

## Frequently Asked Questions

### **How does a hospital demonstrate meaningful use in order to avoid a payment adjustment?**

An eligible hospital or CAH demonstrates meaningful use by successfully attesting through the Hospital Quality Reporting (HQR) system.

### **Will CMS require the submission of supporting documentation along with the Hardship Exception application?**

CMS does not require an eligible hospital or CAH to submit documentation with the Hardship Exception application. CMS will review the application to record the category selected and use the identifying information for each eligible hospital and CAH listed on the application. Eligible hospitals and CAHs should retain documentation of their circumstances supporting their application for their own records in the event CMS requests an audit.

### **Can an eligible hospital or CAH that switched CEHRT vendors apply for a Hardship Exception and avoid a negative payment adjustment?**

Yes, if an eligible hospital or CAH switches CEHRT vendors during the reporting period and is unable to demonstrate meaningful use, the eligible hospital or CAH may submit a Hardship Exception application.

### **What if my electronic health record product is decertified?**

If your EHR product is decertified, you can still use that product to submit your measures if the reporting period ended before the decertification occurred. If your reporting period ended after the decertification occurred, you can apply for a Medicare Promoting Interoperability Program Hardship Exception.
