CY 2023 MEDICARE PROMOTING INTEROPERABILITY PROGRAM OVERVIEW

December 13, 2022
This presentation was current at the time of publication and/or uploaded onto the Quality Reporting Center and the Hospital Quality Reporting (HQR) websites. Medicare policy changes frequently. Any links to Medicare online source documents are for reference use only. If Medicare policy, requirements, or guidance related to this presentation change following the date of posting, this presentation will not necessarily reflect those changes; given that it will be an archived copy, it will not be updated.

This presentation was prepared as a service to the public and is not intended to grant rights or impose obligations. Any references or links to statutes, regulations, and/or other policy materials included in the presentation are provided as summary information.

No material contained therein is intended to take the place of either written laws or regulations. If there is any conflict between the information provided by the presentation and information included in any Medicare rules and/or regulations, the rules and regulations shall govern. The specific statutes, regulations, and other interpretive materials should be reviewed independently for a full and accurate statement of their contents.
PRESENTATION

• Background

• Changes to the Medicare Promoting Interoperability Program for eligible hospitals and critical access hospitals (CAHs) in CY 2023

• Objectives & Measures

• Additional Resources

• Q&A
MEDICARE PROMOTING INTEROPERABILITY PROGRAM BACKGROUND
MEDICARE & MEDICAID EHR INCENTIVE PROGRAMS: 2011-2018

- Introduced in 2011 as part of the Health Information Technology for Economic and Clinical Health (HITECH) Act of 2009
- Encouraged eligible professionals (EPs), eligible hospitals, and CAHs to adopt, implement, and upgrade (AIU) certified electronic health record (EHR) technology (CEHRT) to demonstrate meaningful use of health information technology (health IT)

**Advanced in 3 Stages**

**STAGE 1:** Established requirements for the electronic capture of clinical data

**STAGE 2:** Encouraged the use of CEHRT to meet key quality measures established by the agency

**STAGE 3:** Focused on using CEHRT to advance health outcomes
HISTORICAL OVERVIEW OF THE EHR INCENTIVE PROGRAMS

- Threshold-based scoring methodology
- Progressed in 3 stages
- Objectives:
  - 7 for modified Stage 2
  - 6 for Stage 3
- 16 available eCQMs
- Focused on CEHRT adoption and implementation
MEDICARE PROMOTING INTEROPERABILITY PROGRAM: 2018-PRESENT

- Renamed from EHR Incentive Programs
- Overhauled Medicare reporting requirements to align with new focus
- Medicaid Promoting Interoperability Program ended on December 31, 2018
CURRENT PROGRAM OVERVIEW

Requires eligible hospitals and CAHs to report on objectives and measures to be considered a meaningful EHR user and avoid a downward payment adjustment.
PAYMENT ADJUSTMENTS

For the Medicare Promoting Interoperability Program, eligible hospitals and CAHs must demonstrate meaningful use by successfully reporting using the CMS Hospital Quality Reporting System to avoid a downward payment adjustment: [https://hqr.cms.gov/hqrng/login](https://hqr.cms.gov/hqrng/login)

Eligible hospitals and CAHs must demonstrate meaningful use for an EHR reporting period every year to avoid a downward payment adjustment.

If an eligible hospital does not demonstrate meaningful use, the payment adjustment is applied as a reduction to the applicable percentage increase to the Inpatient Perspective Payment System payment rate for one year.

If a CAH does not demonstrate meaningful use, its Medicare reimbursement will be reduced from 101 percent of its reasonable costs to 100 percent for that year.
CHANGES TO THE MEDICARE PROMOTING INTEROPERABILITY PROGRAM IN CY 2023
CHANGES TO THE MEDICARE PROMOTING INTEROPERABILITY PROGRAM IN CY 2023

**Query of PDMP Measure**
The Query of PDMP measure will be required and include Schedule II drugs as well as Schedules III and IV drugs.

**Health Information Exchange Objective**
Enabling Exchange under TEFCA measure as a third option to completing the measure requirements.

**Public Health and Clinical Data Exchange Objective**
Must submit your level of Active Engagement. Modifications to the levels of Active Engagement:
- Option 1: Pre-Production and Validation (combination of existing options 1 and 2);
- Option 2: Validated Data Production (existing Option 3, renamed).

**Scoring**
- **Reduction** from 40 points to 30 points for the HIE Objective
- **Reduction** from 40 to 25 points for the Provider to Patient Exchange Objective
- **Increase** from 10 to 25 points for the Public Health and Clinical Data Exchange Objective
- **Increase** from 10 to 20 points for the Electronic Prescribing Objective

**eCQMs**
- Addition of Severe Obstetric Complications and Cesarean Birth eCQMs for voluntary reporting
  - *Must use 4 quarters of 2023 data when reporting eCQMs*
2023 EHR REPORTING PERIOD TIMELINE

**Reporting Year**
- Begins January 1, 2023
- Ends December 31, 2023

**Attestation & Reporting**
- Important Dates
  - Attestation & Reporting begin January 1, 2024
  - Final day to report using Hospital Quality Reporting (HQR) system is February 29, 2024

**Hardship Exception**
- 2024
  - Eligible hospitals and CAHs who did not demonstrate meaningful use can submit a Hardship Exception Application no later than September 1

**Payment Adjustments**
- FY 2025*
  - Payment adjustments applied January 1, FY 2025 for eligible hospitals

*Payment Adjustments for CAHs will be applied for FY 2023
SCORING METHODOLOGY

- Total score of up to 100 possible points.
  - Includes scores of individual measures added together.
- Eligible hospitals and CAHs must earn a minimum total score of **60 points** to be considered a Meaningful User
  
  *Note – Program participants must report on all required measures to be considered a meaningful user, regardless of final score.*
- Bonus points have the potential to add 5 points.
- Report a “yes” to the ONC Direct Review Attestation and the SAFER Guides and Security Risk Analysis Measures.
## Medicare Promoting Interoperability Program Scoring Methodology

14
CEHRT REQUIREMENTS

CEHRT Requirements

• Required use of the 2015 Edition Cures Update criteria.

• 2015 Edition Cures Update functionality must be used as needed for a measure action to count in the numerator during the EHR reporting period chosen by the eligible hospital or CAH (a minimum of any continuous 90 days).
**eCQM REQUIREMENTS**

*Voluntary for CY 2023"
OBJECTIVES & MEASURES
CY 2023
**Electronic Prescribing Objective and Measures**

**e-Prescribing**: At least one hospital discharge medication order for permissible prescriptions (for new and changed prescriptions) is queried for a drug formulary and transmitted electronically using certified electronic health record technology (CEHRT).

- 10 points
- Numerator/Denominator reporting
- Exclusion available

**Query of Prescription Drug Monitoring Program (PDMP)**: For at least one Schedule II opioid or Schedule III or IV drug electronically prescribed using CEHRT during the electronic health record (EHR) reporting period, the eligible hospital or CAH uses data from CEHRT to conduct a query of a PDMP for prescription drug history.

- 10 points
- Yes/No attestation
- Exclusions available
Support Electronic Referral Loops by Sending Health Information:
• Up to 15 points
• Numerator/Denominator reporting
• No exclusion available

Support Electronic Referral Loops by Receiving and Reconciling Health Information:
• Up to 15 points
• Numerator/Denominator reporting
• No exclusion available

OR

Choose from one of the following below

Health Information Exchange (HIE) Bi-Directional Exchange: (Alternative to two previous HIE measures)
• Up to 30 points
• Yes/No attestation
• No exclusion available

Enabling Exchange under TEFCA: (Alternative to two previous HIE measures)
• Up to 30 points
• Yes/No attestation
• No exclusion available
Provider to Patient Exchange Objective Overview and Measure

Provide Patients Electronic Access to Their Health Information: For at least one unique patient discharged from the eligible hospital or CAH inpatient or emergency department (POS 21 or 23): (1) the patient (or patient-authorized representative) is provided timely access to view online, download, and transmit his or her health information; and (2) the eligible hospital or CAH ensures the patient's health information is available for the patient (or patient authorized representative) to access using any application of their choice that is configured to meet the technical specifications of the application programming interface (API) in the eligible hospital or CAH’s CEHRT.

- Up to 25 points total
- Numerator/Denominator reporting
- No exclusion available
PUBLIC HEALTH AND CLINICAL DATA EXCHANGE
OBJECTIVE OVERVIEW

The eligible hospital or CAH must be in and report their level of active engagement with a public health agency (PHA) to...

**Immunization Registry Reporting:** submit immunization data and receive immunization forecasts and histories from the public health immunization registry/immunization information system (IIS).
- Up to 25 points total for all 4 measures
- Yes/No attestation
- Exclusions available

**Syndromic Surveillance Reporting:** submit syndromic surveillance data from an emergency department (POS 23).
- Up to 25 points total for all 4 measures
- Yes/No attestation
- Exclusions available

**Electronic Case Reporting:** submit case reporting of reportable conditions.
- Up to 25 points total for all 4 measures
- Yes/No attestation
- Exclusions available

**Electronic Reportable Laboratory (ELR) Result Reporting:** submit ELR results.
- Up to 25 points total for all 4 measures
- Yes/No attestation
- Exclusions available
PUBLIC HEALTH AND CLINICAL DATA EXCHANGE

OBJECTIVE OVERVIEW (CONTINUED)

Public Health and Clinical Data Exchange Objective and Measures

The eligible hospital or CAH must be in and report their level of active engagement with a public health agency (PHA) to...

**Public Health Registry Reporting (bonus):** submit data to public health registries.
- Up to 5 additional bonus points
- Yes/No attestation
- No exclusion available

**Clinical Data Registry Reporting (bonus):** submit data to a clinical data registry (CDR).
- Up to 5 additional bonus points
- Yes/No attestation
- No exclusion available

*Can report on only one measure to receive the 5 additional bonus points*
SECURITY RISK ANALYSIS MEASURE

Eligible hospitals and CAHs must conduct or review a security risk analysis of CEHRT and address encryption/security of data, implement security updates as necessary, and correct identified security deficiencies as part of the provider’s risk management process.

Actions included in the security risk analysis measure may occur any time during the calendar year in which the EHR reporting period occurs.

It remains a requirement of the Medicare Promoting Interoperability Program but is not scored.

A Yes/No attestation is required.

Failure to complete this requirement results in program failure.
SAFER GUIDES

- ONC developed and released the 9 Safety Assurance Factors for EHR Resilience (SAFER) Guides to help hospitals conduct self-assessments to optimize the safety and safe use of EHRs.
- Beginning with CY 2022 EHR reporting period, CMS added a new SAFER Guides measure to the Protect Patient Health Information objective.

Eligible hospital or CAH must attest to having conducted an annual self-assessment using all 9 SAFER Guides at any point during the calendar year in which the EHR reporting period occurs.

A Yes/No attestation statement is required, accounting for having completed an annual self-assessment on all 9 SAFER guides. For CY 2023, this measure is required, will not be scored, and an attestation of yes or no is acceptable and will not affect the total score or status.
OTHER REQUIRED ATTESTATIONS

• Acting to limit or restrict the compatibility or interoperability of CEHRT.
• Office of the National Coordinator (ONC) Direct Review Attestation.
• These attestations are required by section 106(b)(2)(B) of MACRA.
PUBLICLY REPORTED INFORMATION

- Hospital name
- CMS Certification Number (CCN)
- Meaningful Use Designation
- Total score
ADDITIONAL RESOURCES

• For more information on final changes to the Medicare Promoting Interoperability Program visit the Promoting Interoperability Programs website.

• The slides, transcript, and recording of today’s webinar will be posted in the coming weeks to the Promoting Interoperability Programs Events webpage: https://www.cms.gov/Regulations-and-Guidance/Legislation/EHRIncentivePrograms/EventsPI

• CCSQ Help Desk: Medicare Promoting Interoperability Program participants may contact the CCSQ Help Desk for assistance at qnetsupport@cms.hhs.gov or 1-866-288-8912.
  • Please note the help desk name and email address have changed.
QUESTIONS?

• Submit your questions via the Q&A box.

• CMS will address as many questions as time allows.
THANK YOU
