1. **MEDPAR NCH Claim Type Code**

   **LENGTH**: 2
   **BEG**: 1
   **END**: 2
   **CHAR**

   The code used to identify the type of claim record being processed in NCH.

   **NOTE1**: During the Version H conversion this field was populated with data throughout history (back to service year 1991).

   **NOTE2**: During the Version I conversion this field was expanded to include inpatient 'full' encounter claims (for service dates after 6/30/97).

   **NOTE3**: Effective with Version 'J', 3 new code values have been added to include a type code for the Medicare Advantage claims (IME/GME, no-pay and paid as FFS). During the Version 'J' conversion, these type codes were populated throughout history.

**DB2 ALIAS**: UNDEFINED

SOURCE : NCH
CODE TABLE : NCH_CLM_TYPE_TB

2. MEDPAR Claim Locator Number Group
   11 3 13 GRP
This number uniquely identifies the beneficiary.

3. MEDPAR Beneficiary Claim Account Number
   9 3 11 CHAR
The number identifying the primary beneficiary under the SSA or RRB programs submitted.

   NOTE: This field comes from the CAN that is present on the first claim record included in the stay.

   DB2 ALIAS : UNDEFINED
   SAS ALIAS : MCAN
   STANDARD ALIAS : MEDPAR_BENE_CLM_ACNT_NUM
   LENGTH : 9
   SOURCE : NCH

4. MEDPAR Category Equatable Beneficiary Identification Code
The code which categorizes groups of BICs representing similar relationships between the beneficiary and the primary wage earner.

The equitable BIC module electronically matches two records that contain different BICs where it is apparent that both are records for the same beneficiary. It validates the BIC and returns a base BIC under which to house the record in the national claims history (NCH) databases. (All records for a beneficiary are stored under a single BIC.)

NOTE: This field comes from the NCH category base BIC that is present on the first claim record included in the stay.

CHAR

On an institutional claim, the National Provider Identifier (NPI) number assigned to uniquely identify the institutional provider certified by Medicare to provide services to the beneficiary.

Note: Effective may 23, 2007, the NPI became the national standard identifier for covered health care providers. The NPI will replace current OSCAR provider numbers, UPINs, NSC numbers, and local contractor provider identification numbers (PINs) on standard HIPPA claim transactions.

Note1: CMS has determined that dual provider identifiers (legacy numbers and new NPI) must be available in the NCH. After the 5/07 NPI implementation, the standard system maintainers will add the legacy number to the claim when it is adjudicated.

Note: This field comes from the organization NPI that is present on the first claim record included in the stay.

| 3 | 97 | 99 |

The count in days of the total length of a beneficiary's stay in a hospital or SNF.

DB2 ALIAS : UNDEFINED
SAS ALIAS : MLOSDAY
STANDARD ALIAS : MEDPAR_LOS_DAY_CNT

LENGTH : 5 SIGNED : Y

DERIVATIONS:
This field is derived by subtracting the date of discharge (or thru date in SNF cases where beneficiary is still a patient) from the date of admission. If difference is '0,' the value becomes a '1.'
39. MEDPAR Outlier Day Count

<p>| | | |</p>
<table>

53. MEDPAR Inpatient Low Volume Payment Amount

5 159 163 PACK

The amount field used to identify a payment adjustment given to hospitals to account for the higher costs per discharge for low income hospitals under the Inpatient Prospective Payment System (IPPS).

NOTE: Effective with MEDPAR2000 expansion, all amount fields were expanded from S9(7) to S9(9).

DB2 ALIAS: UNDEFINED
SAS ALIAS: MLOWVOL
STANDARD ALIAS: MEDPAR_IP_LOW_VOL_PMT_AMT

LENGTH: 9 SIGNED: Y

DERIVATIONS:
This field is derived by accumulating the IP Low Volume Amount that is present on any of the claim records included in the stay (i.e. the sum of the low volume amounts reported on the claims that comprise the stay).
54. MEDPAR Total Charge Amount

The total amount (rounded to whole dollars) of all charges (covered and noncovered) for all services provided to the beneficiary for the stay.

NOTE: Effective with MEDPAR2000 expansion, all amount fields were expanded from S9(7) to S9(9).

DB2 ALIAS: UNDEFINED
SAS ALIAS: MTTOTCHRG
STANDARD ALIAS: MEDPAR_TOT_CHRG_AMT

LENGTH: 9  SIGNED: Y

DERIVATIONS:
This field is derived by accumulating the total charge amount from all claim records included in the stay (i.e. the sum of total charges reported on the claims that comprise the stay).

SOURCE: NCH
EDIT RULES:
+$$$$$$$$$$
ROUNDED; ON-SIZE (OVERFLOW) SITUATION = ALL NINES

55. MEDPAR Total Covered Charge Amount

The portion of the total charges amount (rounded to whole dollars) that is covered by Medicare for the stay.

NOTE: Effective with MEDPAR2000 expansion, all amount fields were expanded from S9(7) to S9(9).

DB2 ALIAS: UNDEFINED
SAS ALIAS: MCVRCHRG
STANDARD ALIAS: MEDPAR_TOT_CVR_CHRG_AMT
This field is derived by calculating the covered charges from all claim records included in the stay (i.e., subtract the revenue center noncovered charge amount from the revenue center total charge amount for revenue center code = 0001 that is reported on the claims that comprise the stay; sum the results). Exception: if there exists an erroneous condition relative to revenue center code 0001, the calculation will be made for each revenue center code included on the claims that comprise the stay with the results summed to create the total.

**Note: in some situations, a negative claim payment amount May be present; e.g., (1) when a beneficiary is charged the full deductible during a short stay and the deductible exceeded the amount Medicare pays; or (2) when a beneficiary is charged a coinsurance amount during a long stay and the coinsurance amount exceeds the amount Medicare pays (most prevalent situation involves psych hospitals who are paid a daily per diem rate no matter what the charges are.)

Under IP PPS, Inpatient hospital services are paid based on a predetermined rate per discharge, using the DRG patient classification system and the pricer program. On the ip PPS claim, the payment amount includes the DRG outlier approved payment amount, disproportionate share (since 5/1/86), in- direct medical education (since 10/1/88), total PPS capital (since 10/1/91). After 4/1/03, the payment amount could also include a "new technology" add-on amount. After 7/5/2011, the payment amount could also include a payment adjustment given to hospitals to account for the higher costs per discharge for "low-income hospitals". After 10/1/12,
the payment amount could also include adjustments for value based purchasing, readmissions, and Model 1 bundled payments for care improvement. After 10/1/14, the amount could also include the uncompensated care payment (UCP).

It does not include the pass-thru amounts (i.e., capital-related costs, direct medical education codes, kidney acquisition costs, bad debts); or any beneficiary-paid amounts (i.e., deductibles and coinsurance); or any other payer reimbursement.

Under SNF PPS, SNFs will classify beneficiaries using the patient classification system known as rugs III. For the SNF PPS claim, the SNF pricer will calculate/return the rate for each revenue center line item with revenue center code = '0022'; multiply the rate times the units count; and then sum the amount payable for all lines with revenue center code '0022' to determine the total claim payment amount.

Exceptions: For claims involving demos and bba encounter data, the amount reported in this field may not just represent the actual provider payment.

For demo ids '01','02','03','04' -- claims contain amount paid to the provider, except that special 'differentials' paid outside the normal payment system are not included.

For demo ids '05','15' -- encounter data 'claims' contain amount Medicare would have paid under ffs, instead of the actual pay- ment to the MCO.

For demo ids '06','07','08' -- claims contain actual provider payment but represent a special negotiated bundled payment for both part a and part B services. To identify what the conventional provider part a payment would have been, check value code = 'y4'.

For bba encounter data (non-demo) -- 'claims' contain amount Medicare would have paid under ffs, instead of the actual payment to the bba plan.

NOTE: Effective with MEDPAR2000 expansion, all amount fields were expanded from S9(7) to S9(9).
STANDARD ALIAS : MEDPAR_MDCR_PMT_AMT
LENGTH : 9   SIGNED : Y

98. MEDPAR Intensive Care Unit (ICU) Indicator Code

1 349 349 CHAR

The code indicating that the beneficiary has spent time under intensive care during the stay. It also specifies the type of ICU.

DB2 ALIAS : UNDEFINED
SAS ALIAS : MICUIND
STANDARD ALIAS : MEDPAR_ICU_IND_CD

LENGTH : 1

DERIVATIONS :
This field is derived by checking for the presence of icu revenue center codes (listed below) on any of the claim records included in the stay. If more than one of the revenue center codes listed below are included on these claims, the code with the highest revenue center total charge amount is used.

LIMITATIONS:
There is approximately a 20% error rate in the revenue center code category 0206 due to coders misunderstanding the term 'post ICU' as including any day after an ICU stay rather than just days in a step-down/lower case version of an ICU. 'Post' was removed from the revenue center code 0206 description, effective 10/1/96 (12/96 MEDPAR update). 0206 Is now defined as 'intermediate ICU'.

206. MEDPAR Final Standard Amount

      5  1513  1517  PACK

This amount field identifies the result of the application of additional standardization requirements (e.g. sequestration) to the PPS Standardization Payment Amount. This amount is never used for payments. It is used for comparisons across different regions of the country for the value-based purchasing initiatives and for research. It is a standard amount, without the geographical payment adjustments and some of the other add-on payments that actually go to the hospitals.

NOTE: This field was added with CR#9.

DB2  ALIAS: UNDEFINED
SAS  ALIAS: FSTDAMT

LENGTH: 9  SIGNED: Y

DERIVATIONS:
This field is derived by accumulating the amount field (CLM_FINL_STD_AMT) that is present on any of the claim records included in the stay (i.e. sum of the CLM_FINL_STD_AMT reported on the claims that comprise the stay).

Railroad Retirement Board:

NOTE:
Employee: a Medicare beneficiary who is still working or a worker who died before retirement
Annuitant: a person who retired under the railroad retirement act on or after 03/01/37
Pensioner: a person who retired prior to 03/01/37 and was included in the railroad retirement act

10 = Retirement - employee or annuitant
80 = RR pensioner (age or disability)
14 = Spouse of RR employee or annuitant  
   (husband or wife)  
84 = Spouse of RR pensioner  
43 = Child of RR employee  
13 = Child of RR annuitant  
17 = Disabled adult child of RR annuitant  
46 = Widow/widower of RR employee  
16 = Widow/widower of RR annuitant  
86 = Widow/widower of RR pensioner  
43 = Widow of employee with a child in her care  
13 = Widow of annuitant with a child in her care  
83 = Widow of pensioner with a child in her care  
45 = Parent of employee  
15 = Parent of annuitant  
85 = Parent of pensioner  
11 = Survivor joint annuitant  
   (reduced benefits taken to insure benefits  
    for surviving spouse)

CLM_SRC_IP_ADMSN_TB Claim Source Of Inpatient Admission Table

**For Inpatient/SNF Claims:**

0 = ANOMALY: invalid value, if present, translate to '9'
1 = Non-Health Care Facility Point of Origin (Physician Referral) - The patient was admitted to this facility upon an order of a physician.
2 = Clinic referral - The patient was admitted upon the recommendation of this facility's clinic physician.
3 = HMO referral - Reserved for national assignment. (eff. 3/08)
   Prior to 3/08, HMO referral - The patient was admitted upon the recommendation of an health maintenance organization (HMO) physician.
4 = Transfer from hospital (Different Facility) - The patient was admitted to this facility as a hospital transfer from an acute care
facility where he or she was an inpatient.
5 = Transfer from a skilled nursing facility (SNF) or Intermediate Care Facility (ICF) - The patient was admitted to this facility as a transfer from a SNF or ICF where he or she was a resident.
6 = Transfer from another health care facility - The patient was admitted to this facility as a transfer from another type of health care facility not defined elsewhere in this code list where he or she was an inpatient.
7 = Emergency room - The patient was admitted to this facility after receiving services in this facility's emergency room department. Obsolete - eff. 7/1/10
8 = Court/law enforcement - The patient was admitted upon the direction of a court of law or upon the request of a law enforcement agency's representative. Includes transfers from incarceration facilities.
9 = Information not available - The means by which the patient was admitted is not known.
A = Reserved for National Assignment. (eff. 3/08)
Prior to 3/08 defined as: Transfer from a Critical Access Hospital - patient was admitted/referred to this facility as a transfer from a Critical Access Hospital.
B = Transfer from Another Home Health Agency - The patient was admitted to this home health agency as a transfer from another home health agency. (Discontinued July 1, 2010 - See Condition Code 47)
C = Readmission to Same Home Health Agency - The patient was readmitted to this home health agency within the same home health episode period. (Discontinued July 1, 2010)
D = Transfer from hospital inpatient in the same facility resulting in a separate claim to the payer - The patient was admitted to this facility as a transfer from hospital inpatient within this facility resulting in a separate claim to the payer.
E = Transfer from Ambulatory Surgery Center - The patient was admitted to this facility as
a transfer from an ambulatory surgery center.
(eff. 10/1/2007)

F = Transfer from Hospice and is under a Hospice
Plan of Care or Enrolled in a Hospice Program -
The patient was admitted to this facility as a
transfer from a hospice.
(eff. 10/1/2007)

**For Newborn Type of Admission**

1 = Normal delivery - A baby delivered without
    complications. Obsolete eff. 10/1/07

2 = Premature delivery - A baby delivered
    with time and/or weight factors
    qualifying it for premature status.
    Obsolete eff. 10/1/07

3 = Sick baby - A baby delivered with
    medical complications, other than those
    relating to premature status. Obsolete eff. 10/1/07

4 = Extramural birth - A baby delivered in
    a nonsterile environment. Obsolete eff. 10/1/07

5 = Born Inside this Hospital - eff. 10/1/07

6 = Born Outside of this Hospital - eff. 10/1/07

7-9 = Reserved for national assignment.

7 = Kidney transplant (revenue code 0367)

MEDPAR_WRNG_IND_TB  
MEDPAR Warning Indicators Code Table

Warning indicator 1 ('adjustment indicator' derived from the presence of query code values noted below on any of the claim records included in the analysis):
0 = No adjustment (no query code = 0 or 5)
1 = Credit adjustment (query code = 0)
2 = Debit adjustment (query code = 5)
3 = Credit and debit adjustment (both query code = 0 and 5)

Warning indicator 2 ('error condition' derived from checking the edit code trailer on the final action claims(s) that comprise the stay):
0 = No error
1 = Error condition

Warning indicator 3 ('reimbursement/total charge indicator' derived after summing up fields on the final action claim(s) that comprise the stay; checks resulting Medicare payment amount (commonly called reimbursement), total charge amount, as well as beneficiary primary payer amount and utilization day count):
0 = Medicare payment amount and total charge amount > zeroes
1 = Medicare payment amount and total charge amount < zeroes
2 = Medicare payment amount is a credit
3 = Total charge amount is a credit
4 = Medicare payment amount, total charge amount, beneficiary primary payer claim payment amount, and utilization day count = zeroes

Warning indicator 4 ('utilization day/los day indicator' derived after summing up fields on the final action claim(s) that comprise the stay; compares resulting utilization day count and length-of-stay count):
0 = Utilization day count = los day count
1 = Utilization day count < los day count
2 = Utilization day count > los day count

Warning indicator 5 ('single/multiple claim indicator' derived when the stay record is created by checking the number of final action claims that comprise the stay):
0 = Stay includes a single final action claim
1 = Stay includes multiple final action claims
2 = Stay includes multiple final action claims and beneficiary is still a patient (applicable to
Warning indicator 6 ('intermediary cancel indicator' derived from the presence of the values noted below for intermediary claim action code and intermediary-requested claim cancel reason code on any of the claims included in the analysis. If multiple claims contain these values, latest claim is used. If both specified action code and cancel reason code are present, cancel reason code takes priority.):

0 = No cancel action
1 = Cancel action by credit adjustment (action code = (2 or 6)
2 = Cancel action only (action code = 4)
3 = Coverage transfer (cancel reason code = C)
4 = Plan transfer (cancel reason code = P)
5 = Scramble (cancel reason code = S)
6 = Duplicate billing (cancel reason code = D)
7 = Other (cancel reason code = H)
8 = Combining 2 spells or 2 beneficiary records (cancel reason code = L)

Warning indicator 7 ('state/county numeric indicator' derived from checking the format of the beneficiary residence SSA state code and beneficiary residence county code on the final action claim(s) that comprise the stay; determine if in numeric range):

0 = State and county codes are valid numeric values
1 = State and county codes are not in numeric range
2 = State code is not in numeric range
3 = County code is not in numeric range

Warning indicator 8 ('duplicate indicator' derived from the presence of two claim records with the same claim number, admission date, provider number, claim from/thru date, HCFA process date and query code; death/admission date indicator derived by comparing the admission date on the final claim(s) that comprise the stay to the beneficiary death date):

0 = Do duplicate record
1 = Duplicate record
2 = Death date < admission date
3 = Death date < admission date and duplicate record
Warning indicator 9 ('pass-thru indicator' derived from the presence of a pass thru per diem amount on the final action claim(s) that comprise the stay):

0 = No pass thru per diem present (Non-PPS)
1 = Pass thru per diem present on final action claim

Warning indicator 10 (eff 3/96 update) (rugs indicator applicable to 'nhcmq rugs III SNF demo' stay records derived from the presence of 9,000 series revenue center codes.)

0 = No rugs 9,000 series revenue center codes
2 = Rugs 9,000 series revenue center code(s) with service date 1/1/96 or later
3 = Rugs 9,000 series revenue center code(s) with service date 7/1/96 or later
4 = Rugs 9,000 series revenue center code(s) with service date 1/1/97 or later

Warning indicators 11 - 17 (not yet assigned; zeroes will be present)

Next Generation (NG) Accountable Care Organization (ACO) Indicator Code Table

0 = Base record (no enhancements)
1 = Population Based Payments (PBP)
2 = Telehealth
3 = Post Discharge Home Health Visits
4 = 3-Day SNF Waiver
5 = Capitation
6 = CEC Telehealth
7 = Care Management Home Visits

Patient Discharge Status Table

01 = Discharged to home/self care (routine charge).
02 = Discharged/transferred to other short term general hospital for inpatient care.
03 = Discharged/transferred to skilled nursing facility (SNF) with Medicare certification in anticipation of covered skilled care -- (For hospitals with an approved swing bed arrangement, use Code 61 - swing bed. For reporting discharges/transfers to a non-certified SNF, the hospital must use Code 04 - ICF.
04 = Discharged/transferred to a facility that provides custodial or supportive care (includes intermediate care facilities (ICF). Also used to designate patients that are discharged/transferred to a nursing facility with neither Medicare nor Medicaid certification and for discharges/transfers to Assisted Living Facilities.
05 = Discharged/transferred to a designated cancer center or children's hospital (eff. 10/09). Prior to 10/1/09, discharged/transferred to another type of institution for inpatient care (including distinct parts). NOTE: Effective 1/2005, psychiatric hospital or psychiatric distinct part unit of a hospital will no longer be identified by this code. New code is '65'.
06 = Discharged/transferred to home care of organized home health service organization in anticipation of covered skilled care.
07 = Left against medical advice or discontinued care.
08 = Discharged/transferred to home under care of a home IV drug therapy provider. (discontinued effective 10/1/05)
09 = Admitted as an inpatient to this hospital (effective 3/1/91). In situations where a patient is admitted before midnight of the third day following the day of an outpatient service, the outpatient services are considered inpatient.
20 = Expired
21 = Discharged/transferred to Court/Law Enforcement.
30 = Still patient.
40 = Expired at home (Hospice claims only).
41 = Expired in a medical facility such as hospital, SNF, ICF, or freestanding hospice. (Hospice claims only)
42 = Expired - place unknown (Hospice claims only)
43 = Discharged/transferred to a federal hospital (eff. 10/1/03). Discharges and transfers to a government operated health facility such as a Department of Defense hospital, a Veteran's Administration hospital or a Veteran's Administration nursing facility. To be used whenever the destination at discharge is a federal health care facility, whether the patient lives there or not.
50 = Hospice - home (eff. 10/96)
51 = Hospice - medical facility (certified) providing hospice level of care
61 = Discharged/transferred within this institution to a hospital-based Medicare approved swing bed (eff. 9/01)
62 = Discharged/transferred to an inpatient rehabilitation facility including distinct parts units of a hospital. (eff. 1/2002)
63 = Discharged/transferred to a Medicare certified long term care hospital. (eff. 1/2002)
64 = Discharged/transferred to a nursing facility certified under Medicaid but not certified under Medicare (eff. 10/2002)
65 = Discharged/Transferred to a psychiatric hospital or psychiatric distinct unit of a hospital (these types of hospitals were
66 = Discharged/transferred to a Critical Access Hospital (CAH) (eff. 1/1/06)
69 = Discharge/transfers to a Designated Disaster Alternative Care site (eff. 10/2013)
70 = Discharged/transferred to another type of health care institution not defined elsewhere in code list.
71 = Discharged/transferred/referred to another institution for outpatient services as specified by the discharge plan of care (eff. 9/01) (discontinued effective 10/1/05)
72 = Discharged/transferred/referred to this institution for outpatient services as specified by the discharge plan of care (eff. 9/01) (discontinued effective 10/1/05)
81 = Discharged to home or self-care with a planned acute care hospital inpatient (eff. 10/2013)
82 = Discharged/transferred to a short term general hospital for inpatient care readmission (eff. 10/2013)
83 = Discharged/transferred to a skilled nursing facility (SNF) with Medicare (eff. 10/2013)
84 = Discharged/transferred to a facility that provides custodial supportive care with a planned acute care hospital inpatient readmission certification with a planned acute care hospital inpatient readmission (eff. 10/2013)
85 = Discharged/transferred to a designated cancer center or children's hospital with a planned acute care hospital inpatient readmission (eff. 10/2013)
86 = Discharged/transferred to home under care of organized home health service organization with a planned acute care hospital inpatient readmission (eff. 10/2013)
87 = Discharged/transferred to court/law enforcement with a planned acute care hospital inpatient readmission (eff. 10/2013)
88 = Discharged/transferred to a Federal health care facility with a planned acute care hospital inpatient readmission (eff. 10/2013)
89 = Discharged/transferred to a hospital-based Medicare approved swing bed with a planned acute care hospital inpatient readmission (eff. 10/2013)
90 = Discharged/transferred to an inpatient rehabilitation facility (IRF) including rehabilitation distinct units of a hospital with a planned acute care hospital inpatient readmission (eff. 10/2013)
91 = Discharged/transferred to a Medicare certified Long Term Care Hospital (LTCH) with a planned acute care hospital inpatient readmission (eff. 10/2013)

92 = Discharged/transferred to a nursing facility certified under Medicaid but not certified under Medicare with a planned acute care hospital inpatient readmission (eff. 10/2013)

93 = Discharged/transferred to a psychiatric hospital or psychiatric distinct part unit of a hospital with a planned acute care hospital inpatient readmission (eff. 10/2013)

94 = Discharged/transferred to a critical access hospital (CAH) with a planned acute care hospital inpatient readmission (eff. 10/2013)

95 = Discharged/transferred to another type of health care institution not defined elsewhere in this code list with a planned acute care hospital inpatient readmission. (eff. 10/2013)

DESCRIPTION:
RRB-issued numbers contain an overpunch in the first position that may appear as a plus zero or A-G. RRB-formatted numbers may cause matching problems on non-IBM machines.

SOURCE:

MEDPAR_ADMSN_DEATH_DAY_CNT_LIM

FULL NAME: MEDPAR Admission Death Day Count Limitation
DESCRIPTION:
MEDPAR Admission Death Day Count calculated incorrectly, on both the 3/00 and 6/00 MEDPAR updates.
BACKGROUND:
Both the 3/00 and 6/00 MEDPAR updates incorrectly calculated the mortality days; i.e., days between the admission date and the beneficiary date of death. Users of the regular unencrypted MEDPAR file, this is not a problem, as the count can be calculated using the admission date and the date of death. The problem is with the encrypted file (the expanded modified MEDPAR) because the fields needed to calculate the mortality days are ranged.
CORRECTIVE ACTION:
The problem was corrected with the 12/00 MEDPAR update. NOTE: For users of the expanded modified MEDPAR file who needs the mortality days, the 12/00 update of the FY1999 file can be given as a replacement.

SOURCE:
CONTACT: OIS/EDG/DMUDD
FULL NAME: MEDPAR Blood Deductible Amount Limitation
DESCRIPTION:
It was discovered that the blood deductible amounts were incorrect on the old MEDPAR Files.

BACKGROUND:
Users of the MEDPAR data were comparing money amounts and counts present on the new MEDPAR file (created 6/95 using NCH Nearline File as the source) to that reported on the old MEDPAR File (created 3/95 and prior from claims from the Medicare Quality Assurance System) for Fiscal Year 1994. They discovered that the blood deductible amount on the new MEDPAR was greater than that of the old MEDPAR.

During NCH's investigation it was determined that the old 500-character MEDPAR incorrectly used a different field to report the blood deductible; specifically the noncovered charges derived from blood use Revenue Center codes 0380-0389. The new program correctly used the NCH field, BENE_BLOOD_DDCTBL_LBLTY_AMT, which is derived from a value code (CLM_VAL_AMT associated with CLM_VAL_CD = '6').

It is believed that all MEDPAR files created prior to 6/95 in the 500 character version are affected. MEDPAR 500 was first available with calendar year and fiscal year 9/91 updates for year 1987 forward.

NOTE: This anomaly also impacts the DRG Price Amount on the old MEDPAR file because it is calculated from a number of fields including the blood deductible.

SOURCE:
CONTACT: OIS/EDG/DMUDD

FULL NAME: MEDPAR Date of Death Limitation
DESCRIPTION:
The Date of Death on the MEDPAR files were not up-to-date for four cycles.

BACKGROUND:
The MEDPAR process pulls in 10 segments of the HISKEW file, to get the date of death. The HISKEW file names were changed with no notification the change was being made. Because of this, MEDPAR kept using the HISKEW that was created in June 2000.

CORRECTIVE ACTION:
Since this anomaly causes no major problem to the prime user of this data, a rerun will not take place. 
NOTE: The 12/01 quarterly update will access up-to-date information.

MEDPAR_DRG_PRICE_AMT_LIM

FULL NAME: MEDPAR DRG Price Amount Limitation
DESCRIPTION :
IT WAS DISCOVERED THAT THE DRG PRICE AMOUNT WAS INCORRECT ON THE OLD MEDPAR FILES.

BACKGROUND :
Users of the MEDPAR data were comparing money amounts and counts present on the new MEDPAR file (created 6/95 using NCH Nearline File as the source) to that reported on the old MEDPAR File (created 3/95 and prior from claims from the Medicare Quality Assurance System) for Fiscal Year 1994. They discovered that the DRG price amount on the new MEDPAR contained incorrect amounts.

NOTE: This anomaly occurs because the DRG price amount is calculated from a number of fields including the blood deductible amount, which was discovered to be populated incorrectly.

During NCH's investigation it was determined that the old 500-character MEDPAR incorrectly used a different field to report the blood deductible; specifically the noncovered charges derived from blood use Revenue Center codes 0380-0389. The new program correctly used the NCH field, BENE_BLOOD_DDCCTBL_LBLTY_AMT, which is derived from a value code (CLM_VAL_AMT associated with CLM_VAL_CD = '6').

It is believed that all MEDPAR files created prior to 6/95 in the 500 character version were affected. MEDPAR 500 was first available with calendar year and fiscal year 9/91 updates for year 1987 forward.

SOURCE:

MEDPAR_MAR_QTRLY_UPDT_LIM

FULL NAME: MEDPAR March Quarterly Update Limitation
DESCRIPTION :
The 3/01 quarterly update of the FY00 file containing fewer records than the 12/00 version.
BACKGROUND:
The 3/01 quarterly update of the FY00 file has about 50,000 fewer records than the 12/00 update. The problem originated from modified programs required to process Version 'I' input. There was an omission of a sort step from the modified Version 'I' processing procedures.

CORRECTIVE ACTION:
The sort sequence was corrected and the 3/01 incorrect datasets were replaced with new files on 7/17/01.
