PROVIDER TYPES AFFECTED

This MLN Matters Article is for hospitals, providers and suppliers billing Medicare Administrative Contractors (MACs), including the Home Health and Hospice MACs, for services provided to Medicare beneficiaries.

PROVIDER ACTION NEEDED

This article discusses changes to the October 2020 version of the Integrated Outpatient Code Editor (I/OCE) instructions and specifications for the Integrated OCE that Medicare uses

- Under the Outpatient Prospective Payment System (OPPS) and Non-OPPS for hospital outpatient departments, community mental health centers and all non-OPPS providers
- For limited services when provided in a Home Health Agency (HHA) not under the Home Health Prospective Payment System
- For a hospice patient for the treatment of a non-terminal illness.

Make sure your billing staffs are aware of these changes.

BACKGROUND

CR 11944 informs the MACs and the Fiscal Intermediary Shared System (FISS) maintainer that the I/OCE is being updated for October 1, 2020. The I/OCE routes all institutional outpatient claims (which includes non-OPPS hospital claims) through a single integrated OCE. The Centers for Medicare & Medicaid Services (CMS) will post the I/OCE specifications at https://www.cms.gov/Medicare/Coding/OutpatientCodeEdit/OCEQtrReleaseSpecs.
The modifications of the I/OCE for the October 2020, v21.3 release, are summarized in the table below. You should also read through the entire specifications document and note the highlighted sections, which also indicate changes from the prior release of the software. Some I/OCE modifications in the update may be retroactively added to prior releases. If so, the retroactive date appears in the 'Effective Date' column.
