## Action Needed

---

Make sure your billing staff knows about the CPT additions to National Coverage Determination (NCD): Sacral Nerve Stimulation for Urinary Incontinence (230.18), effective June 17, 2025.

## Key Updates

---

CR 14263 relevant coding changes include adding these CPT codes as covered under NCD 230.18:

- 0786T
- 0787T
- 0788T
- 0789T

Note: Your MAC won't search for claims but may adjust claims you bring to their attention.

CR 14394 updates the coverage and billing requirements for NCD 230.18 in the [Medicare Claims Processing Manual, Chapter 32](#), sections 40.1 and 40.2.1.

## Background

---

CR 14263 provides a maintenance update of ICD-10 conversions and other NCD-specific coding updates. These NCD coding changes result from newly available codes, separately released NCD coding revisions, or coding feedback received by CMS.

See [previous coding changes](#) that appeared in ICD-10 quarterly updates and other CRs implementing new policy NCDs. Also, see the [NCD spreadsheet](#) for CR 14263.

Translations from ICD-9 to ICD-10 aren't consistent 1-to-1 matches, nor are all ICD-10 codes appearing in a complete General Equivalence Mappings mapping guide or other mapping guides appropriate when reviewed against individual NCD policies.

## More Information

---

We issued CRs 14263 and 14394 to your MAC as the official instructions for this change. For more information, find your [MAC's website](#).
