Background

We update the HH CB code lists annually to reflect changes to the HCPCS code set. We may issue quarterly updates to reflect when we create temporary HCPCS codes, or K codes, throughout the CY. The new coding in each update describes the same services we used to determine the applicable HH PPS payment rates.

When you submit claims that include services on the list of HCPCS codes subject to the CB provision of the HH PPS, we won't pay separately on dates when the patient is in an HH episode or under an HH plan of care that an HHA administers. Exceptions to this include:

- Therapies physicians perform
- Supplies incidental to physician services
- Supplies you use in institutional settings

HH CB doesn't apply to these exceptions. We directly reimburse only the primary HHAs that have opened such episodes during episode periods.

More Information

We issued CR 14510 to your MAC as the official instruction for this change. For more information, find your [MAC's website](#).
