

Summary of MCMP Downloadable Resource Revisions

For CAD, PC, DM and HF the font color was changed from red (red signified new changes) to all black and the codes were sequenced in numeric order with the 12/06/2007 changes.

The detailed changes are listed below for each topic with the date of the revision appearing in red.

Coronary Artery Disease

Topic Evaluation Codes

No changes

Sequenced codes in numeric order when possible

Topic Medical Exclusion

No changes

Sequenced codes in numeric order when possible, and changed font color when necessary to black

Topic Drug Codes

Revision added 12/06/2007

Added additional column "OTC Status" to the drug table

Revision added 01/22/2008

Added an additional column Meas_Data_Element to designate whether the drug listed is an ACE/ARB or an anti-diabetic medication. The downloadable resource file name has been changed to version 1.2

Summary of MCMP Downloadable Resource Revisions

Preventive Care

Topic Evaluation Codes

Revisions added 12/6/2007
