

Free preventive services help you stay healthy!

Insurance provides free preventive services that can help you stop disease and other health problems, or detect illness early, when treatment is likely to work best.

Adults

Alcohol counseling • Blood pressure tests
Cholesterol screening • Depression screening
Diabetes screening • Immunizations Obesity
counseling • Osteoporosis screening
Mammography • Stop smoking programs

Children

- Autism screening • Behavioral assessments • Immunizations Lead screening • Vision screening

What about other benefits?

While not required, plans may offer additional services, including:

- Dental coverage
- Vision coverage
- Medical management programs for things like weight, back pain, and diabetes

If these or other benefits are important to you, make sure to look for them when you compare plans.

Essential Health Benefits

For American Indians and Alaska Natives

- Benefits that all plans cover
