

National Coverage Determination (NCD) Dashboard

CMS strives to make the NCD process open, transparent, and accessible to medical innovators and other stakeholders. CMS prioritizes NCD requests based on the magnitude of the potential impact on Medicare program and beneficiaries. CMS has leveraged operational efficiencies to streamline and standardize the evidence review process.

** This is a Transitional Coverage for Emerging Technologies (TCET) pilot that tested the processes and concepts of TCET.*

[Anti-Cancer Chemotherapy for Colorectal Cancer \(NCD Removal\) \(2/25/2026\)](#)

[Cardiac Contractility Modulation \(CCM\) for Heart Failure* \(10/28/2025\)](#)

[Noninvasive Positive Pressure Ventilation \(NIPPV\) in the home for Chronic Obstructive Pulmonary Disease \(COPD\) \(6/9/2025\)](#)

[Renal Denervation for Uncontrolled Hypertension* \(10/28/2025\)](#)

[Transcatheter Edge-to-Edge Repair for Tricuspid Valve Regurgitation \(T-TEER\) \(7/2/25\)*](#)

[Transcatheter Tricuspid Valve Replacement \(TTVR\) \(3/19/2025\)*](#)

PENDING TCET TOPICS

Under the Transitional Coverage for Emerging Technologies (TCET) Pathway, CMS does not share the identity of specific manufacturers or devices prior to the opening of an NCD. To provide transparency, we publish the number of devices accepted into the TCET pathway and the dates when the nominations were received and accepted.

Note: Once an NCD is opened for a TCET topic, the link to the tracking sheet will be added to the Open NCDs section above. The tracking sheet will list the dates the nomination was received and accepted, and it will also include the date CMS opened the NCD.

Topic Area: Cardiovascular | **Date Nomination Received:** October 30, 2024 | **Date Nomination Accepted:** January 17, 2025

NCD WAIT LIST

Accepted NCD requests on the Wait List are complete based on the [NCD Request Process](#). Given the volume of requests and our current level of resources, there are times when CMS must tell requestors that an NCD request is accepted, but we cannot immediately begin the NCD process.

Diaphragm Pacemakers for Neuromuscular Disease (request for non-coverage)

Hepatitis C Screening

Hyperbaric Oxygen (HBO) Therapy for Radiation Proctitis and Radiation Enteritis

Infusion Pumps - Continuous subcutaneous insulin infusion (CSII)

Intensive Behavioral Therapy (IBT) for Obesity

Intensive Cardiac Rehabilitation (ICR) Programs

Intestinal and Multi-Visceral Transplantation for Portomesenteric Thrombosis (PMT)

Latent Tuberculosis Infection (LTBI) Screening

Power Standing Systems

Screening for Cervical Cancer with Human Papillomavirus (HPV) Testing

Stem Cell Transplantation - Autologous Stem Cell Transplantation (AuSCT)
