

## CMS Center for Consumer Information & Insurance Oversight (CCIIO), Health Insurance Exchange Public Use Files (Exchange PUFs) Data Dictionary for Network PUF

### 1. Overview of the Network PUF

The Centers for Medicare & Medicaid Services (CMS) Center for Consumer Information & Insurance Oversight (CCIIO) publishes the Exchange PUFs to improve transparency and increase access to data on Qualified Health Plans (QHPs) and Stand-alone Dental Plans (SADPs) offered through the Exchanges in the individual market and Small Business Health Options Program (SHOP). The PUFs include data from states with Federally-facilitated Exchanges (FFE) including states performing plan management functions, and State-based Exchanges that rely on the federal information technology platform for QHP eligibility and enrollment (SBE-FPs). The Exchange PUFs also include data on Multi-State Plans (MSPs) and certified off-exchange SADPs. The PUFs exclude data from SBEs that do not rely on the federal platform for QHP eligibility and enrollment.

The Network PUF (Ntwrk-PUF) is one of the files that comprise the Exchange PUFs. The Ntwrk-PUF contains issuer-level data identifying provider network URLs. These data originate from an issuer's Network ID template of the QHP Application (i.e., template field), or were generated by CCIIO for use in data processing (i.e., system-generated).

This data dictionary describes the variables contained in the Ntwrk-PUF. Each record reports an issuer's provider network. The Ntwrk-PUF is available for plan years 2014 through 2026.
