## Executive Summary

Pursuant to section 1128G(d) of the Social Security Act, the Secretary of the Department of Health and Human Services (HHS) is required to submit an annual Report to Congress summarizing the information reported to the Open Payments program, aggregated by reporting entities, as well as any penalties imposed by HHS that are directly related to the Open Payments program.

This report summarizes the required information and provides an overview of key program activities and achievements that occurred in Fiscal Year (FY) 2025 (October 1, 2024 – September 30, 2025), with a focus on the Program Year 2024 (January 1 – December 31, 2024) data publication. The Open Payments program is a statutorily required, national disclosure program that promotes transparency and accountability by making information about the financial relationships between reporting entities<sup>1</sup> and covered recipients<sup>2</sup> available to the public.

Open Payments data include payments and other transfers of value made to covered recipients, along with ownership and investment interests in the reporting entities held by physicians or their immediate family members. Payments are reported across three reporting categories:

- General Payments: Payments or other transfers of value that are not in connection with a research agreement or research protocol.
- Research Payments: Payments or other transfers of value made in connection with a formal research agreement or research protocol.
- Physician Ownership Information: Information about the ownership or investment interests that physicians or their immediate family members have in the reporting entities.

On June 30, 2025, the Centers for Medicare & Medicaid Services (CMS) published Program Year 2024 data, the eleventh full year of data reported to Open Payments. Additionally, Program Years 2018 through 2023 were refreshed and republished to reflect any adjustments made by reporting entities since the prior publication, and Program Year 2017 data was archived<sup>3</sup>.

In Program Year 2024, reporting entities collectively reported \$13.18 billion in publishable payments and ownership and investment interests. This included 16.16 million records attributable to 651,977 physicians, 338,340 Non-Physician Practitioners (NPPs) and 1,288 teaching hospitals. CMS has the authority to impose civil monetary penalties (CMP) on entities that are not compliant with the Open Payments requirements. In FY 2025, CMS did not impose any Open Payments CMPs.

---

<sup>1</sup> Reporting entities refer to applicable manufacturers and group purchasing organizations (GPOs) required to report payments or transfers of value to covered recipients under the Open Payments program (42 USC §1320a-7h).

<sup>2</sup> For Program Year 2022 and subsequent program years covered recipients collectively refers to physicians, physician assistants, nurse practitioners, clinical nurse specialists, certified registered nurse anesthetists, anesthesiologist assistants, and certified nurse-midwives (excluding medical residents) who are not employees of the applicable manufacturer that is reporting the payment; or teaching hospitals that receive payment for Medicare direct graduate medical education (GME), inpatient prospective payment system (IPPS) indirect medical education (IME), or psychiatric hospital IME programs during the last calendar year for which such information is available.

<sup>3</sup> When a program year reaches its fifth full year of data publication it is no longer eligible for new data submissions or edits and is not searchable within the Open Payments database. Archived program years are accessible with the full dataset available for download on the Open Payments Archived Datasets Page.

**Table 1. Summary of Active Program Years**

Reported Metric	2018	2019	2020	2021	2022	2023	2024
<b>Total Dollar Value of Payments</b>	\$11.07 billion	\$11.98 billion	\$10.63 billion	\$12.64 billion	\$13.11 billion	\$13.14 billion	\$13.18 billion
<b>Total Number of Payment Records</b>	11.74 million	11.37 million	6.61 million	12.29 million	14.31 million	15.79 million	16.16 million

### Open Payments Program Overview and Implementation

The Open Payments program is a statutorily required<sup>4</sup>, national disclosure program that promotes transparency and accountability by making information about the financial relationships between reporting entities and covered recipients available to the public.

Reporting entities report payments or transfers of value made to covered recipients, and ownership and investment interests held by physicians or their immediate family members in the reporting entities. Payments are reported across three categories: general payments, research payments, and ownership and investment interests.

- **General Payments:** Payments or other transfers of value that are made not in connection with a research agreement or research protocol. General payments may include, but are not limited to honoraria, gifts, meals, consulting fees, and travel compensation.
- **Research Payments:** Payments or other transfers of value made in connection with a formal research agreement or research protocol.
- **Physician Ownership Information:** Information about the ownership or investment interests that physicians or their immediate family members have in the reporting entities.

Detailed guidance on reported payment categories is available in the Open Payments Final Rule (*CMS, Transparency Reports and Reporting of Physician Ownership or Investment Interests*, 78 FR 9458, at 9477 (Feb. 8, 2013)) and in regulations at 42 CFR § 403.904.

### Program Year 2024

The Open Payments program operates on a yearly cycle of four key activities:

(1) Data Collection, (2) Data Submission, (3) Pre-Publication Review, Dispute and Correction, and (4) Data Publication. The following is an overview of the Program Year 2024 timeline, projects, and achievements.

1. **Data Collection:** Reporting entities collect data on payments made to covered recipients from January 1 through December 31 of each year, along with any ownership or investment interests held by physicians or their immediate family members in the reporting entity during that time. Data collection for Program Year 2024 took place from January 1, 2024, to December 31, 2024. On January 1, 2025, reporting entities entered a new program cycle and began collecting data for 2025, which will be published in June 2026.

<sup>4</sup> Section 1128G of the Social Security Act.

2. **Data Submission:** Reporting entities submit the data that they collected to CMS. The Program Year 2024 data submission period was February 1 through March 31, 2025.
3. **Pre-publication Review, Dispute, and Correction of Data:** Prior to data publication, covered recipients have an opportunity to review the payments and other transfers of value attributed to them. If they believe a record is inaccurate or incomplete, they may initiate a dispute and work directly with the reporting entity to reach a resolution. Covered recipient review of the data is voluntary; CMS encourages data review to ensure data accuracy. The pre-publication review and dispute period for Program Year 2024 data began on April 1, 2025, and continued through May 15, 2025.

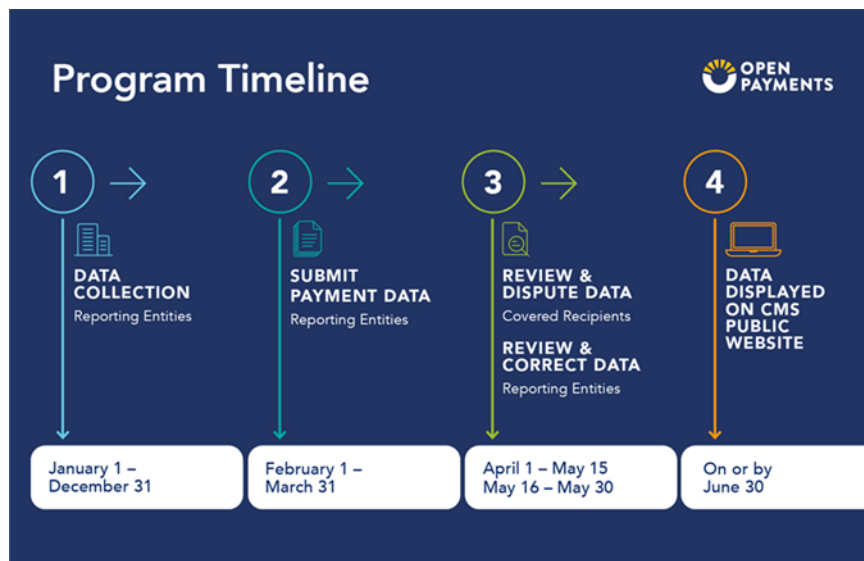

Reporting entities have an additional 15-day correction period to ensure they accurately respond to inquiries or disputes initiated during the pre-publication review and dispute period and make any necessary updates prior to the annual data publication. This additional 15-day correction period continued through May 30, 2025.

The pre-publication review, dispute, and correction period provides an opportunity for data to be reviewed and, if necessary, corrected prior to its publication. Covered recipients may continue to review the data through the end of the calendar year in which data is initially published and, if necessary, dispute payments they believe to be inaccurately reported. Updates to records that occur outside of the pre-publication review and dispute period are reflected in subsequent data refreshes or data publications.

4. **Data Publication:** CMS is required by statute to publish Open Payments data annually by June 30<sup>th</sup>. The data is displayed on the Open Payments website and may be searched with its Search Tool at: <https://openpaymentsdata.cms.gov>. On June 30, 2025, CMS published Program Year 2024 data and refreshed Program Years 2018 – 2023 to reflect any changes between their initial publications and the June 30, 2025 publication.

Figure 2 provides a visual representation of the Open Payments Program Cycle.

**Figure 2. Open Payments Program Cycle Overview**

In Program Year 2024, reporting entities collectively reported \$13.18 billion<sup>5</sup> in publishable payments and ownership and investment interests made to covered recipients. This included 16.16 million total records attributable to 651,977 physicians, 338,340 non-physician practitioners and 1,288 teaching hospitals.

Payments in the three reporting categories were:

- \$3.33 billion in general payments
- \$8.52 billion in research payments
- \$1.34 billion of ownership or investment interests held by physicians or their immediate family members.

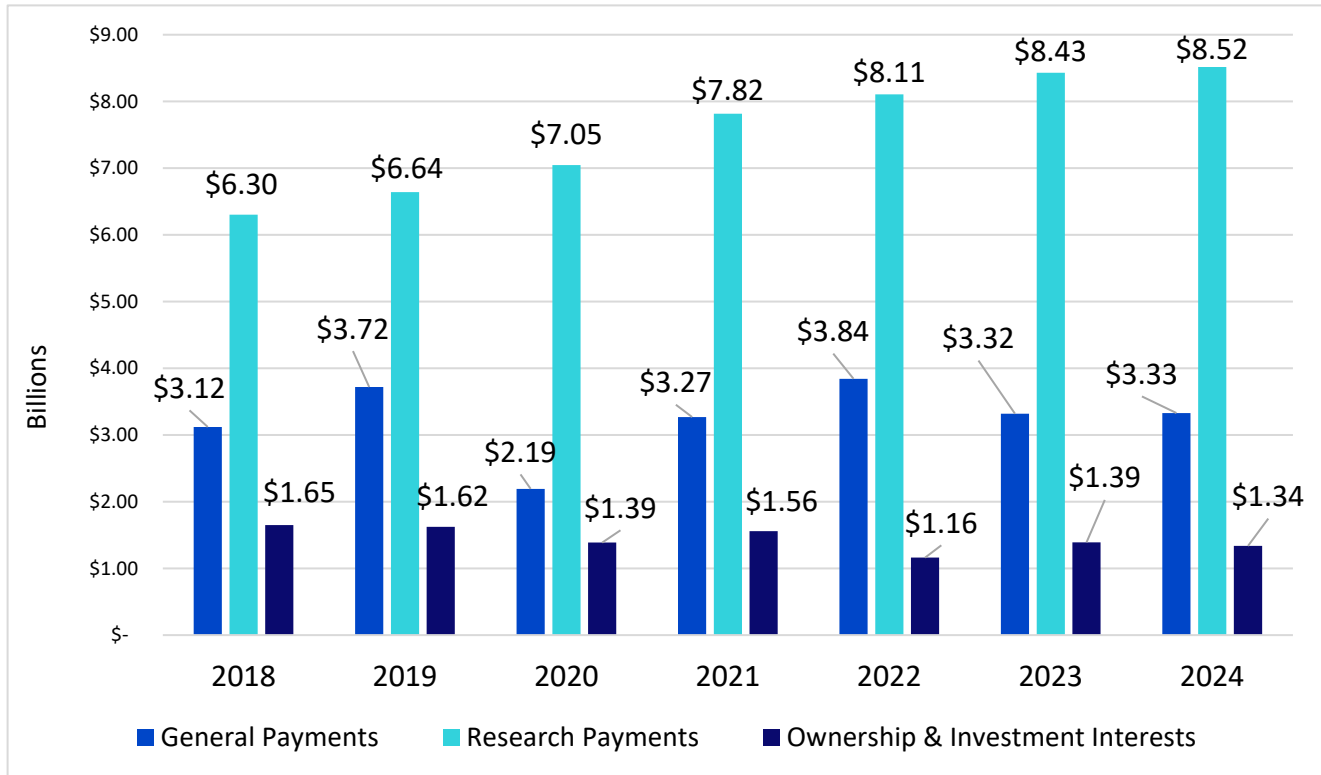

Table 2 summarizes the past seven program years’ aggregated published data, and Figure 1 displays the published dollar value of the payment categories.

**Table 2. Summary of Open Payments Data - Active Program Years (PY)**

<b>Reported Metric</b>	<b>PY 2018</b>	<b>PY 2019</b>	<b>PY 2020</b>	<b>PY 2021</b>	<b>PY 2022</b>	<b>PY 2023</b>	<b>PY 2024</b>
<b>Total Dollar Value of Published Payments</b>	\$11.07 billion	\$11.98 billion	\$10.63 billion	\$12.64 billion	\$13.11 billion	\$13.14 billion	\$13.18 billion
<b>Total Number of Published Records</b>	11.74 million	11.37 million	6.61 million	12.29 million	14.31 million	15.79 million	16.16 million
<b>Total Number of Reporting Entities</b>	1,761	1,807	1,796	1,874	1,884	1,911	1,798
<b>Total Number of Physicians with attributed data</b>	632,812	626,323	494,074	539,879	596,676	633,205	651,977
<b>Total Number of Teaching Hospitals with attributed data</b>	1,199	1,207	1,224	1,251	1,247	1,230	1,288
<b>Total Number of NPPs with attributed data</b>	N/A	N/A	N/A	235,438	274,457	310,631	338,340

<sup>5</sup> Individual program years’ Open Payments data are calculated by totaling the individual program year’s published general payment, research payment, and ownership and investment interest values. Ownership and investment values represent current market value of ownership as of the last feasible valuation across applicable manufacturers and GPOs

**Figure 1. Total Dollar Value of Published Data by Payment Category**

## Engagement and Outreach Efforts

CMS strives to maintain active and engaging relationships with all program stakeholders. Outreach efforts include electronic listserv distributions, webinars, stakeholder calls, attendance at in person events and working groups. Throughout FY 2025, the Open Payments team leveraged these forms of communication to strategically promote the program and keep stakeholders updated and informed on program activity and upcoming changes. CMS recognizes the importance of communication with program participants and stakeholders and works diligently to maintain communication with all parties involved in the Open Payments program. These efforts strengthen CMS' relationship with program participants and positively impact the program.

## External Stakeholder Outreach

CMS's Open Payments Program stakeholder outreach and consultation efforts during FY 2025 included the following:

- Hosted a webinar for reporting entities during the data submission period. The webinar focused on relevant program activities including data submission, and review and dispute information. The event provided an opportunity for the Open Payments team to present timely program information, respond to questions and receive feedback regarding an array of topics including, but not limited to, reporting requirements, data submission, and review, dispute and correction actions.
- Maintained regular communication with stakeholders via Open Payments email distribution. These emails were distributed via the CMS Open Payments self-subscribe listserv and to the Open Payments system users consisting of reporting entities and covered recipients. Emails provided program timeline reminders and deadlines, as well as general operational updates.
- During the pre-publication review and dispute period, the Open Payments team conducted outreach to individual covered recipients with a cumulative total of \$5,000.00 or more in payments attributed to them in the Program Year 2024 data.
  - An email was distributed to the identified covered recipients notifying them Program Year 2024 data was attributed to them. The email outlined the pre-publication review and dispute process and reminded covered recipients that their participation is voluntary but CMS encouraged their review of the reported data to help ensure the accuracy of the data.
- The team maintained strong connections and collaborations with provider associations. This allowed the Open Payments messages to be disseminated throughout the provider community with reminders to review, affirm and if needed dispute data ahead of the June data publication.
- Open Payments was featured on the American Association of Nurse Practitioner (AANP) podcast, The Pulse.
  - This opportunity gave CMS the ability to broadly share information about the program and address program-related topics of specific interest to nurse practitioners. The podcast was released in August 2025 and was well received by the Nurse Practitioner community.
- The Open Payments Communications team collaborated with the Open Payments Search Tool team to design search tool enhancements to support patient use and understanding of the Open Payments Data.
  - The design enhancements were derived from the previous fiscal year's Open Payments focus group session where patients shared their understanding of Open Payments and what healthcare transparency means to them. The focus group results supported the hypothesis and recommendation from the CMS Office of Communication (OC) that

Search Tool visitors would more easily and readily understand the program with more context to the data. A/B testing was applied to the Search Tool Homepage enhancements. A/B testing enabled a “control” version (i.e. the original design. “A”) to be displayed to roughly 50% of the Search Tool to visitors and the enhanced version (i.e. new “B” version) to the other visitors. Analysis of click rates and page interactions between the two groups were compared to inform decision making and implementation of enhanced designs. More information and examples of the design enhancements are available in the search tool section.

### Open Payments Help Desk Activity

The Open Payments help desk responds to program-related questions and provides technical assistance. The help desk consistently receives positive feedback from those who utilize it. Stakeholders contact the help desk for technical support and sometimes to share their experiences with the Open Payments Program and its policies and operations more generally. CMS values these interactions and strives to meet stakeholder needs and implements suggestions to enhance stakeholder experience when applicable. CMS maintains an established process and procedure for capturing and systematically reviewing stakeholder feedback received through the program’s helpdesk. Table 3 summarizes the volume of help desk contacts in FY 2025.

**Table 3. FY 2025 Help Desk Activity Summary**

Type of Communication	Total Volume
Inbound Calls	3,421
Outbound Calls	1,362
Emails	1,542
All Communication Types	6,325

### Compliance Activities

Open Payments continued compliance efforts focused on improving the timeliness, accuracy, and completeness of the reported data. While the primary goal of Open Payments compliance efforts is to bring organizations into compliance, CMS has the authority to impose civil monetary penalties (CMPs) for late, inaccurate, and/or incomplete reporting. During FY 2025, the compliance team sent 9 pre-demand letters, which are warning letters that give reporting entities the opportunity to come into compliance before CMS pursues a CMP. No Open Payments CMPs were issued in FY 2025.

The Open Payments team conducted fourteen compliance outreach efforts. In total 1,211 unique companies received at least one compliance related communication in FY 2025. These efforts encouraged timely, accurate, and complete submission of reportable data and resulted in the inclusion of previously unreported data and the correction of errors in the reported data.

In FY 2025, CMS did not introduce any new compliance outreach types. The Compliance Team repeated several previously successful compliance efforts including outreaches to the following: 1) entities that stopped reporting without any publicly available reasons; 2) entities that attested their records late; and 3) entities that were newly registered for Program Year 2024 data submission but may have needed to report records for prior program years. In total, these efforts resulted in the correction or update of 2,170 records.

Open Payments has audit authority pursuant to 42 CFR 403.912(e) and these audits are conducted to determine the extent to which reporting entities comply with the regulations governing the Open Payments program. In FY 2025, CMS completed 4 Open Payments audits. Three of the audits resulted in minor or no findings and did not lead to a CMP. CMS's decision regarding enforcement action based on the findings of the fourth audit is pending. The insight gained from this year's audits lead CMS to fine-tune its audit strategy to include more issue-based and desk audits and fewer random selection audits.

### **Open Payments System & Search Tool Enhancements**

In FY 2025, various enhancements were implemented to improve the user experience in the Open Payments System and to modernize the program's technology infrastructure. The Open Payments Search Tool also underwent enhancements to support more user-friendly features, streamlined access to all data files and additional data context. The Open Payments System and Search Tool sites are vitally important to the program because these are the sites through which data is reported and published.

#### **Open Payments System Enhancements**

The Open Payments System (OPS) is a secure system designed to support data submission, review, dispute and correction activities, and compliance communications. Reporting entities and covered recipients are the primary system users; OPS is not available to the public. OPS users must have login credentials and are vetted upon registration.

CMS modernized the user registration and identity verification. The new Remote Identity Proofing (RIDP) method replaces older processes, for quicker, safer, and more reliable verification for Reporting Entity Officers and Teaching Hospital Officials. Identity verification and account management improvements offer streamlined registration, enhanced security, and reduce administrative burden.

#### **Key FY 2025 Improvements:**

- **Simplified User Experience:** Consolidated registration, identity checks, and profile creation into one workflow.
- **Integrated Identity Verification:** verifies the identities of US-based healthcare Reporting Entity Officers and Teaching Hospital officials with flexible data requirements.
- **Streamlined Identity Verification:** the user identity verification process was updated to better align risk-based assurance strategies which, among its other benefits, resulted in an overall streamlining and simplification of the process for the users.
- **Behavioral Risk Detection:** this proactive approach to risk management uses behavior-based signals to flag activity that may indicate fraud. It's a first-of-its-kind effort at CMS and represents a significant advancement in protecting the integrity of the registration process. This risk detection was piloted in the OPS to help detect potentially suspicious behavior before a user completes registration.

- **Dashboards and Reports:** to improve transparency and oversight, CMS moved key internal data into interactive dashboards. These dashboards provide real-time insights into submissions and outreach, helping teams track performance and respond quickly.
- **Moving Analytics In-House:** To meet federal data standards, CMS moved all Open Payments analytics into an internal platform. This ensures all data stays within CMS's control and supports efforts to protect taxpayer dollars. All Open Payments Analytics are completed within the CMS analytical platform, fully complying with CMS Transparency Reports and Analytics (TRA) guidelines.

### Open Payments Search Tool Enhancements

The Open Payments Search Tool is a crucial feature of the Open Payments public data display. It is a simple, accessible, and comprehensive tool enabling the public to access and interact with Open Payments data. Through the search tool, users can search for health care providers and companies reporting data.

CMS continues to maintain the search tool and make updates to it for optimal user experience and accessibility. The search tool is available online at <https://openpaymentsdata.cms.gov>. To improve the overall user experience, the Open Payments Search Tool was updated with the following refinements and features.

- **Homepage Updates:**
  - The homepage was enhanced with visual elements, including a carousel to present key program information in an engaging and interactive format. The carousel displays details about the types of interactions that result in reportable Open Payments data.
  - A dashboard featuring key facts and statistics about the Open Payments data was introduced to increase user engagement and provide valuable context for users who may be unfamiliar with the Open Payments program.
- **A/B testing implementation**
  - A/B testing technology was implemented to evaluate different versions of features and user experiences, enabling data-driven comparisons based on user engagement and feedback. Insights from these tests informed homepage enhancements, ensuring updates were aligned with user needs and preferences.
- **Migration of dataset downloads to search tool page**
  - The dataset download page was migrated to the Open Payments Search Tool to centralize data access. This effort improved dataset visibility and enhanced the overall user experience by streamlining navigation, maintaining all data on a singular site and making information easier to find. The downloadable files were previously accessible on the secondary Open Payments website at [cms.gov/openpayments](https://cms.gov/openpayments)

Figure 2. Sample of Carousel Enhancement

The image is a screenshot of the Open Payments website. At the top, the Open Payments logo is displayed. Below the logo, the main heading reads: "Learn about the financial relationships that drug and medical device companies have with healthcare providers." A link "Learn more about Open Payments >" is positioned below the heading. The search interface includes a "Search by:" section with radio buttons for "Individual Provider" (selected), "Teaching Hospital", and "Company". A search bar contains the text "Find a provider profile" and a "Search the Data ->" button. Below the search bar, it states "Data displayed is from January 2018 - December 2024." and a link for "Advanced Search".

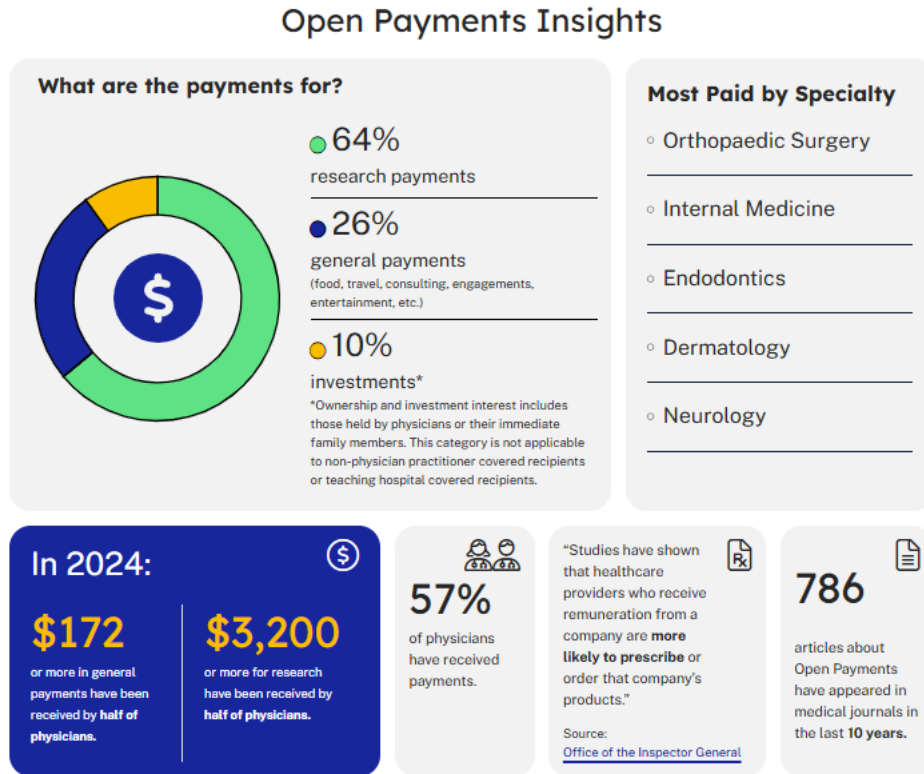

Medical companies make a variety of payments to hospitals and health care providers.

These could include:

-  Giving a hospital a research grant
-  Paying a nurse to speak at a conference
-  Bring lunch to health care workers during a pharmaceutical sales rep visit

At the bottom of the carousel, there are navigation arrows and a "1/7" indicator.

Figure 3. Sample of Dashboard Enhancement

## **Appendix A. Aggregate Data by Applicable Manufacturer and Group Purchasing Organization (GPO)**

The aggregated data included in this report contains data from Program Year 2024 (January 1, 2024 – December 31, 2024). This dataset has undergone review and dispute for 45 days as per the final rule and was published on June 30, 2025.

Name of Applicable Manufacturer / Group Purchasing Organization Making Payment	Dollar Amounts				Number of Transactions				Number of Covered Recipients		
	General	Research	Investment	Interest	General	Research	Investment	Interest	Physicians	Teaching Hospitals	Non-Physician Practitioners
