

Skilled Nursing Facility (SNF) Quality Reporting Program (QRP) Quick Reference Guide FY 2022

The IMPACT Act of 2014 mandated the establishment of the SNF QRP. As finalized in the Fiscal Year (FY) 2016 SNF PPS final rule, beginning with FY 2018 and each subsequent FY, the Secretary shall reduce the market basket update (also known as the Annual Payment Update, or APU) by 2 percentage points for any SNF that does not comply with the quality data submission requirements with respect to that FY.

SNFs utilize the Minimum Data Set (MDS) 3.0 via the Quality Improvement and Evaluation System (QIES) Assessment Submission and Processing (ASAP) system to collect patient assessment data. The implementation of the SNF QRP will not change requirements related to the submission of MDS 3.0 data through the Assessment Submission and Processing (ASAP) system to the Quality Improvement Evaluation System (QIES).

If the required quality data is not reported by each designated submission deadline, the SNF will be subject to a two (2)-percentage point reduction in their annual payment update (APU).

Frequently Asked Questions

Q: Where can I find more information about the SNF QRP requirements?

Providers should visit the SNF QRP webpages for more information on SNF QRP measures and requirements. This webpage will be frequently updated with announcements and resources including:

- [SNF QRP training materials](#)
- [Measures and technical information](#)
- [Program FAQs](#)

Q: How do I verify my MDS submission?

The best method to verify that your current MDS data submission has been accepted into QIES is by running final validation reports. Detailed guidance on how to run and interpret MDS reports can be found in the [CASPER Reporting User's Guide](#). Select "Section 7 – Final Validation Report" to open the PDFs. An additional resource is the MDS 3.0 Provider User's Guide, available on the same page. Refer to Section 4 for information on submission reports.

As you review your error messages, be sure to correct any instances where the value submitted for the quality measure item is a dash (-). Entering a dash as a response to a quality item may result in your facility not meeting the required threshold for that quality item.

Q: How are MDS QRP thresholds calculated?

The MDS threshold is calculated by taking the total number of assessments with 100% of the required MDS data elements (numerator) divided by the number of successfully submitted assessments (denominator). The resulting number is multiplied by 100 to determine the threshold percentage. In general, MDS records submitted for patient admissions and/or discharges occurring during the reporting period will be included in the denominator. For FY 2022, providers must submit 80% or more of all assessments with 100% of the required MDS data elements to be in compliance with SNF QRP requirements.

For example, for FY 2022 compliance determination, if during the reporting period (01/01/2020-12/31/2020) a facility has submitted 1000 assessments and 800 of the assessments submitted have 100% of the required MDS data elements the threshold percentage would equal 80%. Thus, the facility would be deemed compliant with SNF MDS data reporting requirements for APU compliance purposes.

The SNF QRP Table for Reporting Assessment-Based Measures for the FY 2021 SNF QRP APU table outlines which MDS items are required for the purposes of APU. The table for FY 2022 can be found in the Downloads box on the [Skilled Nursing Facility \(SNF\) Quality Reporting Program Measures and Technical Information web page](#).

*Note: The calculation algorithm will be adjusted if the SNF was granted an extension or exemption by CMS.

Q: When is a new SNF required to begin reporting SNF QRP data?

As stated in the FY 2016 SNF PPS final rule, a new SNF would be required to begin reporting data on all quality measures finalized for that program year by no later than the first day of the calendar quarter subsequent to 30 days after the date on the SNF's CMS Certification Number (CCN) notification letter. The calendar quarters always begin on the following days: January 1st, April 1st, July 1st and October 1st.

EXAMPLE: If a SNF received its CCN on August 28, 2017, and 30 days are added (August 28 + 30 days = September 27), the SNF would be required to submit data for residents who are admitted beginning on October 1, 2017.

Q: Are swing beds subject to SNF QRP requirements?

According to the FY 2016 SNF PPS final rule (80 FR 46429), critical access hospitals (CAHs) with swing beds are not required to submit quality data under the SNF QRP. Note, however, that non-CAH swing beds are subject to SNF QRP requirements. For more information about requirements for swing bed providers, please refer to the [SNF Prospective Payment System \(PPS\) Swing Bed webpage](#).

Q: What measures are required for the SNF QRP?

The table below outlines the required assessment-based measures and the data submission mechanism for those measures.

NQF Number	Measure Name	Data Submission Mechanism
#2634	Application of IRF Functional Outcome Measure: Change in Mobility Score for Medical Rehabilitation Patients	MDS 3.0
#2636	Application of IRF Functional Outcome Measure: Discharge Mobility Score for Medical Rehabilitation Patients	MDS 3.0
#2635	Application of IRF Functional Outcome Measure: Discharge Self-Care Score for Medical Rehabilitation Patients	MDS 3.0
#2631	Application of Percent of Long-Term Care Hospital Patients with an Admission and Discharge Functional Assessment and a Care Plan That Addresses Function	MDS 3.0
#0674	Application of Percent of Residents Experiencing One or More Falls with Major Injury (Long-Stay)	MDS 3.0
#2633	Application of the IRF Functional Outcome Measure: Change in Self-Care Score for Medical Rehabilitation Patients	MDS 3.0
N/A	Changes in Skin Integrity Post-Acute Care: Pressure Ulcer/Injury	MDS 3.0
N/A	Drug Regimen Review Conducted With Follow-Up for Identified Issues	MDS 3.0
N/A	Transfer of Health Information to the Patient-Post-Acute Care (PAC)*	MDS 3.0
N/A	Transfer of Health Information to the Provider-Post-Acute Care (PAC)*	MDS 3.0

* Data collection beginning with October 1, 2020 discharges.

Claims-based measures are also included in the SNF QRP. These measures are calculated through Medicare Fee-For-Service claims data and do not require SNFs to submit any additional data to CMS. A list of claims-based measures is available on the [CMS SNF QRP Measures and Technical Information webpage](#).

Help Desk Assistance

SNFQualityQuestions@cms.hhs.gov (Quality Help Desk)

For questions about quality measures calculation, data submission deadlines, pressure ulcer coding and staging, claims-based measures, and general quality reporting questions.

SNFQRPPRQuestions@cms.hhs.gov (Public Reporting Help Desk)

For questions about data reported in the CASPER Review and Correct reports, Quality Measures reports, or Provider Preview reports.

SNFQRPreconsiderations@cms.hhs.gov (APU/Reconsiderations Help Desk)

For reconsideration requests and follow-up questions after the facility has received a CMS determination of noncompliance letter.

QRPHelp@swingtech.com (Post-Acute Care Support Team)

For questions about Outreach and the APU Quick Reference Guide contents.

Help@qtso.com or 1-877-201-4721 (QIES Help Desk)

For questions about MDS record completion and submission processes, or for technical questions. This group also handles questions related to MDS/CASPER login IDs/passwords and jRAVEN software.
