Q: How can I report a problem, or make a suggestion about the Medicare Prescription Drug Dashboard?

A: To report a problem or submit feedback, please use the [Submit Feedback](#) link found at the bottom of the Dashboard Page.

Q: How frequently will the data be updated in the Medicare Prescription Drug Dashboard?

A: The Medicare Prescription Drug Dashboard data will be updated annually after payments are final post payment reconciliation. The dashboard will contain complete, reconciled years only. Adjustments after reconciliation will not be included in the data.

Q: Why do I have to scroll to see the Dashboard?

A: The dashboard was designed to be displayed with 1280 X 800 resolution, and tested on Internet Explorer 7. For best results, you may wish to enable Full Screen mode on your Internet browser.

Q: Are there any plans to include any other dashboards with other CMS data sets (Medicaid utilization, Medicare fee-for-service stats, etc...) into a dashboard format?

A: There are future plans to release Enrollment and Eligibility, Medicare Spending, Fraud & Abuse, etc. Be sure to check the website periodically for new releases.

Q: How can I see the data that is used in the Medicare Prescription Drug Dashboard?

A: You can download the data used in the Prescription Drug Dashboard. To do so, go to the Downloads section of the web page, and right-click on **Accessibility Files**. Select **Save As…** to save the files to your computer.
