

Payment Year 2019 Contract-Specific Risk Adjustment Data Validation Questions and Answers

Last Updated June 25, 2025

Introduction

The Centers for Medicare & Medicaid Services (CMS) conducts contract-specific risk adjustment data validation (RADV) audits to confirm that enrollees' medical diagnoses, submitted by Medicare Advantage organizations (MAOs) for risk adjusted payment, are supported by medical record documentation. When unsupported diagnoses are identified, it could lead to CMS making overpayment determinations and collecting overpayments from MAOs.

Below are answers to frequently asked questions about the Payment Year (PY) 2019 Medicare Advantage (MA) contract-specific RADV audit. CMS may periodically update this document to add and/or clarify questions and answers. Please review the log at the end of this document for a history of updates made.

Questions and Answers

Q1: When did CMS initiate PY 2019 RADV audits?

A1: CMS initiated the first and second batches of PY 2019 RADV audits on June 12, 2025, and June 25, 2025, respectively, when it sent notices in the Health Plan Management System (HPMS) to points of contact for selected MA contracts.

Q2: How long will it take to complete PY 2019 RADV audits?

A2: CMS expects to begin issuing PY 2019 audit findings by early 2026.

Q3: What will be audited during the PY 2019 contract-specific RADV audits?

A3: The PY 2019 RADV audits will focus on risk adjusted payments, made to MAOs for the 2019 coverage year, that CMS believes may be at higher risk for overpayments. Risk adjusted payments for PY 2019 were derived from diagnoses from face-to-face medical encounters with dates of service from January 1, 2018, through December 31, 2018. CMS selects samples of enrollees within the audited MA contracts and request medical records from MAOs to confirm that diagnoses submitted by MAOs to receive risk adjustment payments are supported by medical record documentation.

Q4: Who reviews the medical record documentation submitted by MAOs?

A4: CMS tasks certified medical record coders to perform the intake and diagnosis code abstraction reviews of medical records in support of RADV audits.

Q5: What recourse does an MAO have if it disagrees with audit results communicated by CMS in a final audit report?

A5: An MAO that disagrees with MA RADV audit results has up to sixty (60) days to appeal medical record review determinations and/or payment error calculations included in an issued audit report. More information about the MA RADV appeals process is found in regulations at [42 CFR 422.311 \(c\)](#).

Q6: If an MAO believes it submitted a transaction(s) in the past to CMS to delete a diagnosis code(s) related to a CMS-HCC that has been selected in its RADV audit sample, how should the MAO proceed? Should the MAO submit a medical record(s) to CMS before the MR submission deadline to substantiate the audited CMS-HCC?

A6: CMS advises that the MAO submit a valid medical record for each audited CMS-HCC selected in the audit sample. Given the timing of when PY 2019 RADV audits were initiated, CMS will refresh sampling frame data prior to calculating PY 2019 RADV audit results to ensure the accuracy of overpayment calculations. If a diagnosis code was deleted by the MAO prior to the relevant overpayment data submission deadline for the payment year rerun, and the removal of the diagnosis code resulted in the deletion of the CMS-HCC from risk adjusted payment calculations, then CMS will grant an administrative exception for the CMS-HCC included in the RADV audit sample.

Q7: Which MA contracts were selected in the first batch of PY 2019 CMS RADV audits?

A7: CMS selected the following 45 MA contracts in the first batch of PY 2019 RADV audits:

Parent Organization	Contract ID	Contract Name
American Health Companies, Inc.	H3708	Oklahoma Superior Select, Inc.
Associated Care Ventures, Inc.	H4091	Simpra Advantage, Inc.
