### Vision: What's to Come Over the Next 10 Years

## Partner to Achieve System Transformation

- Aim: Align priorities and policies across CMS and aggressively engage payers, purchasers, states, and beneficiaries to improve quality, achieve equitable outcomes, and reduce health care costs
- Impact on Beneficiaries: Closer engagement with beneficiaries, caregivers, and patient groups across the lifecycle of models will help ensure that models are meeting people's needs
- Measuring Progress:
  - 100% of models that engaged patients/beneficiaries, caregivers, and patient groups through the model lifecycle
  - 100% of new models, where applicable, that make multi-payer alignment available

## **Innovation Center PROM Strategy**

The Innovation Center continues to expand the use of patient-reported measures in accountable care models through our **Patient-Reported Outcomes Measures (PROM) Strategy**.

The PROM Strategy

• Drives innovations in care that facilitate personcentered care and

• Assesses how the Constitution is impacting more dimensions of benefit to the constitution in the constitution in the constitution is impacting more dimensions of benefit to the constitution in the constitution in the constitution is impacting more dimensions of benefit to the constitution in th

- Amplifies the patient voice, promotes accountability, and enhances alignment
- Promotes the Center's commitment to increasing the use of patient reported outcomes performance measures
- Drives innovations in care
  that facilitate personcentered care and
  increases the likelihood
  that people receive care
  that is aligned to their
  goals, values, and
  preferences
- Assesses how the Center is impacting more dimensions of beneficiary experience and improving them

# How the Innovation Center Integrates Patients' Perspectives Across the Model Lifecycle

## IDEATION & DEVELOPMENT

- How does the theory of action align with patients' priorities?
- How does the model capture real-world patient experience?
- How does the model impact affordability for all patients?
- Will the model increase equitable access to health care across demographic and socioeconomic profiles?

## RECRUITMENT & RULEMAKING

- What kind of information about a model do patients want or need?
- How can CMMI communicate to patients/caregivers the intended benefits of receiving care under the model?

#### **APPLICATION**

- Does model applicant distribution provide equitable access to care for all potential patients in the applicant's area?
- Are the model applicants equitably reaching patients?
- What communication tools are best for patients?

## IMPLEMENTATION & EVALUATION

- How are patients
   experiencing the changes in care delivery?
- How are patients experiencing changes in their health outcomes/quality of life?
- What is the impact of the model on patients across different populations?
- How are we mitigating adverse impact on patients?

#### **SCALABILITY**

- How will scaling the model affect patients?
- How do we ensure that the benefits that patients have gained are sustained once the model period ends?

## Welcome and Leadership Remarks

## **Innovation Center Update**

Discussion

### Overview: Innovation Center Person-Centeredness Activities

**VISION** 

Innovation Center models are person-centered through the systematic integration of patient and caregiver perspectives and experiences.

#### **IMPACT**

## PERSON-CENTERED MINDSET

Promote a person-centered mindset across model development, implementation, and evaluation.

## PATIENT PARTNERSHIP

Support a partnership approach for understanding patient perspectives and experiences for two-way communication, real world feedback, and ongoing improvement.

## PATIENT AND CAREGIVER DIVERSITY

Ensure that we capture the range of patient and caregiver perspectives reflective of the healthcare ecosystem.

## OUTCOMES

Advance health equity through intentional integration of diverse perspectives across the model lifecycle. Enhance care experience and outcomes across all population groups served in the model.

## Progress on Value-Based Care Messaging and Spotlight Site

A > Priorities > Innovation Center > Value-Based Care Spotlight

# Value-Based Care Spotlight

## Sharing Stories that Illustrate Value-Based Care's Impact on People

**How Accountable Care Helps Patients - Lamont's Story** 

Flexibility with Home Dialysis - Connor's Story

## **Purpose**

To showcase different aspects of value-based care as told through the voices and experiences of CMS Innovation Center model participants, health care providers, and patients.

### Goal

Improve understanding of valuebased care, including what patients and providers might expect by being part of value-based care and how it can meet their needs.

### Health Care Payment Learning & Action Network Health Equity Advisory Team

### **Guidance for Health Care Entities Partnering with CBOs\***

Key recommendations for engaging CBOs in partnerships to advance health equity through alternative payment models.

Collaboration and Partnership

**Hubs and Conveners** 

Infrastructure

**Funding** 

<sup>\*</sup>Community-Based Organization (CBO): A non-profit organization whose members represent a local community and focus on addressing the community's sociocultural conditions and lived experiences. This can include improving the community members' social and health risks (Aideyan 2018).

## Model Features Leveraging CBOs to Address HRSNs

#### Cell and Gene Therapy (CGT) Access Model

Opportunities for states to partner with CBOs to address potential challenges related to:

- Patient knowledge
- Sickle cell disease care access
- Other specialty care access
- Services for HRSNs
- Care coordination and navigation

#### Innovation in Behavioral Health (IBH) Model

Participating behavioral health practices will:

- Screen patients for HRSNs
- Refer them to CBOs for services to address HRSNs as appropriate

#### Transforming Maternal Health (TMaH) Model

Risk adjusted provider infrastructure payments will be used to:

- Identify local entities to address HRSN and behavioral health patient needs
- Integrate CBOs into screening, referral, and follow-up activities
- Support data integration between providers and CBOs

#### Making Care Primary (MCP) Model

Model participants will:

- Implement universal HRSN screening and referral pathways
- Establish
   partnerships with
   social service and
   CBO providers
- Deepen connections with community resources

#### All-Payer Health Equity Approaches and Development (AHEAD) Model

- State governance structure includes CBOs and patients
- Primary care practice participants receive payments to support coordination with specialists and CBOs
- Incorporate on-site social and community health workers for resource coordination
