

CMS Center for Consumer Information & Insurance Oversight (CCIIO), Health Insurance Exchange Public Use Files (Exchange PUFs) Data Dictionary for Plan Attributes PUF

## 1. Overview of the Plan Attributes PUF

The Centers for Medicare & Medicaid Services (CMS) Center for Consumer Information & Insurance Oversight (CCIIO) publishes the Exchange PUFs to improve transparency and increase access to data on Qualified Health Plans (QHPs) and Stand-alone Dental Plans (SADPs) offered through the Exchanges in the individual market and Small Business Health Options Program (SHOP). The PUFs include data from states with Federally-facilitated Exchanges (FFE) including states performing plan management functions, and State-based Exchanges that rely on the federal information technology platform for QHP eligibility and enrollment (SBE-FPs). The Exchange PUFs also include data on Multi-State Plans (MSPs) and certified off-exchange SADPs. The PUFs do not include data from SBEs that do not rely on the federal platform for QHP eligibility and enrollment.

The Plan Attributes PUF (Plan-PUF) is one of the files that comprise the Exchange PUFs. The Plan-PUF contains plan variant-level data on maximum out of pocket payments, deductibles, health savings account (HSA) eligibility, and other plan attributes. These data originate from an issuer’s Plans & Benefits template of the QHP Application (i.e., template field), or were generated by CCIIO for use in data processing (i.e., system-generated). The issuer can also import data created in other templates (e.g., Network IDs from the Network ID template, Service Area IDs from the Service Area template, and Formulary IDs from the Prescription Drug template) to use as allowable values for the applicable fields in the Plans & Benefits template, or enter these values manually.

This data dictionary describes the variables contained in the Plan-PUF. Each record reports plan characteristics at the plan-variant level. The Plan-PUF is available for plan years 2014 through 2025.
