D. General Process

- The DME MAC will review the request and either:
 - Affirm the request (Chapter 5)
 - Non-affirm the request (Chapter 7)
 - Deem the request incomplete (Chapter 6)
- If a claim denial is necessary for secondary insurance payment for the PMD, the following process is to be followed:
 - The submitter is to submit the **prior authorization request** with complete documentation as appropriate. If all relevant Medicare coverage requirements are **not** met for the PMD, then a non-affirmative prior authorization decision will be sent to the physician and treating practitioner, supplier and Medicare beneficiary advising them that Medicare will not pay for the item.
 - After receiving a non-affirmative decision for the prior authorization request, and a **claim** is submitted by the supplier to the DME MAC for payment it will be denied.
 - The submitter or Medicare beneficiary may forward the denied claim to his/her secondary insurance payee as appropriate to determine payment for the PMD.
- *The DME MAC will postmark notification of the decision to the practitioner, supplier and beneficiary within 10 business days for an initial request. For resubmitted requests the DME MAC will postmark notification of the decision to the practitioner, supplier and beneficiary within 20 business days.*

Chapter 6: An Affirmative Request

Supplier's Actions:

- Ensure that home assessment is complete.
- Deliver the item to beneficiary.
- Document proof of delivery.
- Get patient authorization.
- Have all documentation available on request.
- Submit the claim with the tracking number on the claim.
 - *The submission of the prior authorized PMD claim is to have the 14 byte unique tracking number that is located on the decision letter. For submission of a claim, the unique tracking number is submitted in Item 23 of the 1500 Claim Form. For electronic claims the unique tracking number is submitted at either loop 2300 REF02 (REF01 = G1) or loop 2400 REF02 (REF01 = G1).*
 - If all requirements are met the claim will be paid.
 - The prior authorization demonstration has specific parameters for pre-payment review; however other contractors (CERT, ZPICs, RACs, etc). may have parameters outside of the PA demonstration that will suspend the same claim for another type of review. If your claim is selected for review, guidance and directions will be provided on the Additional Documentation Request Letter from the requesting contractor.

Chapter 7: An Incomplete Request

When an incomplete request is submitted:

- The DME MAC will provide notification of what is missing through a detailed decision letter *postmarked within 10 business days for initial request and 20 business days for resubmitted request of the review* to all parties affected.
- The *submitter* may resubmit another complete package with all documentation required as noted in the detailed decision letter.
- If the claim is submitted by the supplier to the DME MAC for payment with a *non-affirmative* prior authorization decision, it will be denied.
 - *All appeal rights are then engaged.*
 - *This claim could then be submitted to secondary insurance.*

Chapter 8: A Non-Affirmative Request

Physicians/treating practitioner's actions:

- Monitor the beneficiary for a future submission.
 - If the clinical condition of the beneficiary changes, complete and submit a new prior authorization request.
- Use the detailed decision letter to ensure that the request package complies with all requirements.
 - Resubmit a prior authorization request, if appropriate.

Suppliers Action:

- *Use the detailed decision letter to ensure that the request package complies with all requirements.*
 - *Resubmit a prior authorization request, if appropriate.*
- Submit the claim (with the tracking number) for a denial.
 - All appeal rights are then engaged.
 - This claim could then be submitted to secondary insurance.

Chapter 9: Resubmitting a Prior Authorization Request

- The submitter should review the detailed decision letter that was provided.
- The submitter should make whatever modifications are needed to the prior authorization package and follow the submission procedures.
- *The DME MAC will provide notification of the decision through a detailed decision letter postmarked within 20 business days of the review(s) to all parties affected.*

Chapter 10: Claim Submission

- *The submission of the prior authorized PMD claim is to have the 14 byte unique tracking number that is located on the decision letter. For submission of a claim, the unique tracking number is submitted in Item 23 of the 1500 Claim Form. For electronic claims the unique tracking number is submitted at either loop 2300 REF02 (REF01 = G1) or loop 2400 REF02 (REF01 = G1).*
- Series of claims:
 - Should be submitted with the prior authorization tracking number on the claim.
 - Should be submitted to the applicable DME MAC for adjudication.
- Follow the claim submission process based on the prior authorization decision determination.

DRAFT

Chapter 11: The Payment Reduction

- If a claim is submitted without a prior authorization decision, it will be stopped for review.
 - An Additional Documentation Request (ADR) will be sent.
 - The supplier will have 45 days to respond to the ADR with all requested documentation.
 - The supplier can send the documentation via:
 - Fax
 - Mail
 - esMD (for more information see: www.cms.gov/esMD)
 - The DME MAC will review the claim.
 - If the claim is payable the DME MAC will determine if the supplier is a competitive bid supplier.
 - If yes, the claim (and the remainder of the series) will be paid at the single payment amount.
 - If no, the claim (and the rest of the series) will automatically be assessed a 25 percent reduction of the Medicare payment after co-insurance and deductible. *There will be a 3-month grace period before the payment reduction rule applies. Thus, the payment reduction begins for orders written on or after __/__/2012.*
 - This payment reduction is not transferable to the beneficiary.
 - This payment reduction is not appealable.

Chapter 12: The G-Code

- Physician/Practitioner can bill G9156 after he/she submits an initial Prior Authorization Request.
 - G-code is billed to the A/B MAC contractors with the Prior Authorization tracking number.
 - Only one G-code may be billed per beneficiary per PMD even if the physician/practitioners must resubmit the request.
 - Code is not subject to co-insurance and deductible.
 - Physicians may not bill the G-code in instances where the supplier submits the Prior Authorization Request
 - *Suppliers may not bill the G-code.*

Chapter 13: Claim Appeals

Appeals follow all current procedures. For further information consult the Medicare Claims Processing Manual publication 100-04, chapter 29 Appeals of Claims Decision.

This demonstration does not include a separate appeal process for a non-affirmative prior authorization request decision. However, a non-affirmative prior authorization request decision does not prevent the supplier from submitting a claim. Such a submission of a claim and resulting denial by the DME MAC would constitute an initial determination what would make the appeals process available for Medicare beneficiaries and suppliers disputes.
