

Proposed PY 2018 Clinical Measure

Standardized Readmission Ratio

Standardized Readmission Ratio Lower rate desired	
Measure Description	Standardized hospital readmissions ratio of the number of observed unplanned readmissions to the number of expected unplanned readmissions.
Numerator	Number of observed and unplanned hospital readmissions
Denominator	<p>The expected number of unplanned readmissions in each facility, which is derived from a model that accounts for patient characteristics and the discharging acute care hospitals involved.</p> <p>Index hospital discharges that:</p> <ol style="list-style-type: none"> 1. End in death 2. Result in a patient dying within 30 days with no readmission 3. Are against medical advice 4. Include a primary diagnosis for certain types of cancer, mental health condition or rehabilitation 5. Occur after a patient's 12th admission in the calendar year 6. Are from a PPS-exempt cancer hospital 7. Result in a transfer to another hospital on the same day
Minimum Claims	Facilities with fewer than 11 index hospital discharges are not eligible for the measure.
Data Source(s)	<ol style="list-style-type: none"> 1. Medicare Claims 2. REMIS, CROWNWeb, and other CMS ESRD administrative data
Additional	<ol style="list-style-type: none"> 1. Hospitalizations are counted as events in the numerator if they (a) occurred within 30 days of a hospital discharge; and (b) are not considered a "planned" readmission. 2. Additional information about the measure can be found in the SRR Measure Methodology Report posted at http://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-
