CMS regulations establish additional requirements that apply when an agent or broker uses their own website, or that of another agent or broker, to facilitate enrollment in a QHP through the FFM. CMS refers to such agents or brokers who enroll qualified individuals, employers and employees through public-facing websites as “Web-brokers.” The information within the WBE List may be used only for the following purposes:

1. To confirm that a web-broker has successfully completed registration requirements for the FFM for the individual market and/or the Federally-facilitated Small Business Health Options Program (FF-SHOP); and
2. To allow states and other stakeholders to conduct oversight, monitoring and enforcement activities related to web-brokers, and to educate consumers about web-brokers who may provide assistance to consumer who are interested in obtaining health care coverage through the FFM in their states.

The information contained in the WBE list may be used and/or disclosed only to the extent necessary to accomplish these purposes and never to discriminate inappropriately.

All national producer numbers (NPNs) and other web-broker information are self-reported by the agent or broker and should be validated against state and/or other NAIC records to confirm state licensure.

This list contains the names of Web-brokers who have completed FFM registration (including execution of the required agreements) for the 2015 plan year. This list is current as of December 8, 2014 and we anticipate updating the information on a periodic basis. As a reminder, pursuant to 45 C.F.R. 156.340, issuers still have the obligation to confirm their affiliated agents, brokers, web-brokers and other downstream or delegated entities comply with all federal and state licensure, certification, and other applicable requirements.
