

QASP Appeals

What is measured?

The various Appeals QASP standards measure the timeliness and accuracy of processing Medicare Redetermination Notices, as well as the timeliness of Redetermination Effectuations and Qualified Independent Contractor case file submissions.

MAC QASP Data

Fiscal Year	AVG Performance	AVG Determination	Low Determination	Median Determination	High Determination
2022	99%	98%	88%	100%	100%
2023	98%	98%	83%	100%	100%
2024	98%	99%	83%	100%	100%

Trends and Observations

An overall steady trend in average determination scores can be observed from Fiscal Year 2022 – 2024. Every year, at least one MAC was in 100% compliance. For a detailed explanation of performance versus determination scores, please refer to the main QASP page.
