I. GENERAL INFORMATION

A. Background: This recurring update notification provides the availability of payment allowances for the seasonal influenza virus vaccines in the CMS Seasonal Influenza Vaccines Pricing webpage: <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Part-B-Drugs/McrPartBDrugAvgSalesPrice/VaccinesPricing.html>

Seasonal Influenza Vaccines payment is based on 95 percent of the Average Wholesale Price (AWP). The Medicare Part B payment allowances apply for the dates indicated as effective dates on the website.

Payment allowances for codes for which products have not yet been approved will be provided when the products have been approved and pricing information becomes available to CMS.

The payment allowances for pneumococcal vaccines are also based on 95 percent of the AWP and are updated on a quarterly basis via the Quarterly Average Sales Price (ASP) Drug Pricing Files.

B. Policy: The Medicare Part B payment allowance limits for influenza and pneumococcal vaccines are 95 percent of the AWP, as reflected in the published compendia, except where the vaccine is furnished in a hospital outpatient department, Rural Health Clinic (RHC), or Federally Qualified Health Center (FQHC). Where the vaccine is furnished in the hospital outpatient department, RHC, or FQHC, payment for the vaccine is based on reasonable cost.

Annual Part B deductible and coinsurance amounts do not apply. All physicians, non-physician practitioners and suppliers who administer the influenza virus vaccination and the pneumococcal vaccination must take assignment on the claim for the vaccine.
