CMS Manual System	Department of Health & Human Services (DHHS)
Pub 100-20 One-Time Notification	Centers for Medicare & Medicaid Services (CMS)
Transmittal 11312	Date: March 22, 2022
	Change Request 12346

Transmittal 11273, dated February 18, 2022, is being rescinded and replaced by Transmittal 11312, dated, March 22, 2022 to revise business requirement 12346.26. All other information remains the same.

SUBJECT: Send Electronic Funds Transfer (EFT) Information from Provider Enrollment Chain and Ownership System (PECOS) to Fiscal Intermediary Shared System (FISS) - Implementation CR, Consolidation of January 2022 and April 2022 Releases

I. SUMMARY OF CHANGES: This Implementation Change Request (CR) will use the requirements determined in a previously issued CR to incorporate the manually entered EFT fields in FISS into PECOS. It will update PECOS workflows, database, UI, business logic, extract logic, and fields for the PECOS FISS Extract file, the logic and fields for importing the PECOS FISS extract file into FISS, and FISS business logic and workflows.

EFFECTIVE DATE: January 1, 2022 - Analysis, Design, Coding, Testing, and Implementation; April 1, 2022 - Complete Coding, Testing, and Implementation

*Unless otherwise specified, the effective date is the date of service.

IMPLEMENTATION DATE: January 3, 2022 - Analysis, Design, Coding, Testing, and Implementation; April 4, 2022 - Complete Coding, Testing, and Implementation

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

II. CHANGES IN MANUAL INSTRUCTIONS: (N/A if manual is not updated) R=REVISED, N=NEW, D=DELETED-*Only One Per Row.*

N/A	N/A

III. FUNDING:

For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

SUBJECT: Send Electronic Funds Transfer (EFT) Information from Provider Enrollment Chain and Ownership System (PECOS) to Fiscal Intermediary Shared System (FISS) - Implementation CR, Consolidation of January 2022 and April 2022 Releases

EFFECTIVE DATE: January 1, 2022 - Analysis, Design, Coding, Testing, and Implementation; April 1, 2022 - Complete Coding, Testing, and Implementation

*Unless otherwise specified, the effective date is the date of service.

IMPLEMENTATION DATE: January 3, 2022 - Analysis, Design, Coding, Testing, and Implementation; April 4, 2022 - Complete Coding, Testing, and Implementation

I. GENERAL INFORMATION

A. Background: The purpose of this CR is for PECOS to send FISS the new Child Record 19 export test file, for PECOS to receive and import the initial import file from FISS, and for PECOS to begin sending EFT information to FISS in the new Child Record 19 export file. Contractor for Government and Industries (CGI) will send the Child Record 19 Extract test file to FISS on October 5, 2021.

In January 2022, the PECOS user interface will be updated to collect the required FISS claims fields and to create an Electronic Funds Transfer (EFT) Tab that will allow MAC Financial Users access to PECOS in order to add or update EFT information. The FISS system will be updated to receive and process the Child Record 19 export file from PECOS and to notify MACs of any records from PECOS that were not successfully imported into FISS. After completing the import of records from FISS, CGI will provide the Medicare Administrative Contractors (MACs) an "Invalid EFT Report" containing all records that were not imported into PECOS from FISS prior to User Acceptance Testing.

In April 2022, FISS will complete any coding needed and CGI will begin sending the Child Record 19 Extract to FISS. After completing the import of records from FISS, CGI will provide the MACs an "Invalid EFT Report" containing all records that were not imported into PECOS from FISS after Production Go-Live.

- The test Child Record 19 Extract File is a dummy test file with the defined Child Record 19 structure filled with the dummy data. FISS will use this test import file to ensure they will be able to process the file and the data within.
- The FISS EFT Import file from FISS is the EFT import file generated from FISS Production database, which contains EFT data that needs to be migrated to the PECOS database. CGI needs this FISS EFT production import file to
 - Validate FISS EFT import data
 - Provide import data error reports to MACs
 - Coordinate data error resolution with MACs
 - Import FISS EFT data from import file
- The FISS Export file from PECOS, including Child Record 19, from PECOS Production (April 2, 2022) is the export file generated from PECOS Production database, which contains PECOS enrollment data that needs to be imported into the FISS database. FISS needs this PECOS production export file to
 - Complete FISS claims

- Maintain updated Provider data
- **B. Policy:** There is no policy change.

II. BUSINESS REQUIREMENTS TABLE

"Shall" denotes a mandatory requirement, and "should" denotes an optional requirement.

Number	Requirement	Re	esno	nsi	bilit	V						
Trumber	requirement		A/E MA(3	D M			red-		Other		
						4 5 11		M	aint	aine	ers

12346.26. 2	PECOS shall import all EFT records from FISS that pass import logic validations that are in the middle of a pre-note process.									PECOS
12346.26. 2.1	MACs shall track EFT records entered into FISS within 10 days prior to the established "dark period" and make any necessary updates in PECOS (i.e. if prenote process failed) after the PECOS go-live date.	X								
12346.27	PECOS shall not process inbound file from March 30, 2022 through April 1, 2022.									PECOS
12346.28	PECOS shall send the FISS outbound extract file with the EFT child record for the first time on April 2, 2022.									PECOS
12346.29	FISS shall process the outbound FISS extract file with the new EFT child record starting April 2, 2022.					X				PECOS
12346.29. 1	MACs shall refrain from entering EFT data into FISS and PECOS between March 31, 2022 and April 3, 2022 in order to maintain data integrity between the two systems.	X				X				
12346.29. 1.1	Audit MACs shall have all EFTs completed by the Close of Business (COB) on March 29, 2022 to allow Regional Home Health & Hospice Intermediary (RHHI) MACs to complete processing prior to March 31, 2022 to account for the "dark period" that begins on March 31, 2022 and lasts through April 3, 2022.	X								
12346.29. 1.2	RHHI MACs shall prioritize EFTs received from the Audit MACs by COB on March 29, 2022 and have them processed by COB on March 30, 2022 to account for the "dark period" that begins on March 31, 2022 and lasts through April 3, 2022.			X						
	*Note: This requirement applies to RHHI MACs (now called A/B MAC Part HHH)									
12346.29. 2	PECOS shall not generate any FISS Extract files between March 31, 2022 and April 3, 2022 in order to maintain data integrity between the two systems.									PECOS

12346.30	VDC shall not process or reprocess any PECOS Extract files generated before April 1, 2022 after April 1, 2022 Go-Live.									VDC
12346.31	PECOS shall be the system of record after go live. PECOS shall import the file sent by FISS before go live to maintain data integrity. All the existing finalized EFT entered in PECOS and not received from FISS shall be removed from PECOS. The only exceptions are if the EFT is new or if the EFT is end-dated and in the PECOS WIP (Work In Progress) database tables.									PECOS
12346.32	FISS shall set the default for all users as "I" – Inquiry, An override switch shall not be added to FISS.					X				PECOS
12346.32.	Each MAC group shall need to determine who has updating capability in FISS. If MACs need to edit EFT information in an emergency an EFT Update user can make the modifications directly in FISS. MACs should make the updates and inform the COR.	X								
12346.32. 2	MACs shall update PECOS as soon as possible when emergency updates are made in FISS. Note: If the PECOS enrollment is triggered, then PECOS shall override the EFT information in FISS.	X								
12346.32. 3	FISS shall add additional State codes to include: AS, MH, MP, PW and State Code FM (Federated States of Micronesia).					X

V. CONTACTS

Pre-Implementation Contact(s): Kusum Jha, 2404091434 or kusum.jha2@cms.hhs.gov

Post-Implementation Contact(s): Contact your Contracting Officer's Representative (COR).

VI. FUNDING

Section A: For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

- Part A MACs for FISS
- FISS
- HIGLAS
- CMS
- CGI

New EFT FISS fields and Error validations added/not added to PECOS:

New FISS Field added to PECOS	Validation	Added to PECOS	Not Added to PECOS
Pre-Note Date	PECOS shall add new Pre-Note Date field on EFT Enrollment and Eft Tab.	Χ	
	Pre-Note date is recommended on EFT enrollment and required on EFT Tab.	Х	
	Pre-note date is eight-character alphanumeric field in MM/DD/YYYY format.	Х	
	Pre-note date cannot be today's date in PECOS.	Х	
	The Pre-note date for the EFT period may be prior to the termination date of a previous EFT period.	Х	
	MACs can override the pre-note date.	Х	
	If this field is left blank, the system date will not be generated in PECOS. (System date is generated in FISS; in PECOS we will add page level validation for Prenote Date to make sure a date will be provided in Pre-Note Date field).		X
	Pre-Note date cannot be the same date set by the system. (PECOS cannot add system date because it needs to be 3 or 4 days in future depending on the days the EFT dataset was added to PECOS.)		Х

New FISS Field added to PECOS	Validation	Added to PECOS	Not Added to PECOS
	A note will be added to PECOS to	Х	
	inform users to add 2-4 days in		
	advance for the pre-note date. (Current		
	flow in FISS: Day 1 entry into PECOS.		
	Day 2, BDCs pick it up and load it. Day		
	3 is when it is available in FISS for pre-		
	note and everything else.)	.,	
	Add Federal Holiday and weekend validation to Pre-Note date.	Х	
	Pre-note date cannot be more than 30	X	
	days prior to the Effective Date. (The		
	difference between Pre-Note and		
	Effective date cannot be more than 30		
	days.)		
Effective Date	Required for EFT TAB; recommended for enrollment section.	Х	
	This is an eight-character alphanumeric	X	
		^	
	field in MM/DD/YYYY format. The EFT effective date is an editable	X	
	field.	^	
		X	
	Effective date needs to be at least one	X	
	day after Pre-Note date.	X	
	The Effective date cannot be more than	X	
	30 days from the Pre-note date		
	Effective date cannot be equal to Pre- Note date.	Х	
	Effective date needs to be at least one	X	
	day later than the previous bank's End		
	Date.		
	Effective date is 10 days from the Pre-	X	
	Note date. Systematically set Effective		
	date to 10 days after pre-note.		
End date	End date is an eight-character	Х	
	alphanumeric field.		
	End date must be greater than the EET	X	
	Effective date.		
NPI and the Medicare ID	Make NPI and Medicare ID read only on	X	
	the EFT Enrollment and Eft TAB and		
	populate the primary NPI/CCN from		
	section 4 of the enrollment.		
Add a Note to EFT	Note: The NPI and the Medicare ID	X	
Enrollment and Eft TAB for	combination is marked as the primary	This	
NPI and the Medicare ID	Medicare ID/NPI combination in the	combination is	

New FISS Field added to PECOS	Validation	Added to PECOS	Not Added to PECOS
	Physical Location section. To modify the	not unique in	
	NPI and Medicare ID combination, you	PECOS and	
	will need to modify it in Section 4.	MACs need to	
		clean up this	
		data.	
Branch	Required for EFT TAB; recommended for	X	
	enrollment section.		
	This is a 35-character alphanumeric field.	Χ	
	Imbedded spaces are allowed; special		
	characters are allowed. Free text field.		
Routing Transit Number	Routing Transit Number Required (Not	X	
	SPACES)		
	- All nine-digits are required.		
	- Numeric only.		
Routing Transit Number	Ninth digit (Check digit) must be the	Х	
check digit Validation	correct check digit.		
	The last digit of the routing		
	number is called the check digit. It is		
	calculated from the first eight digits using		
	an algorithm. A specific weight is		
	assigned to the position of each digit, the		
	formula used for the first eight digits.		
	The formula used is 37137137. The		
	product of each digit and their		
	associated weight is added up and then		
	divided by 10. The remainder of that		
	division is then subtracted from 10,		
	which gives us the 'check digit'.		
	Example: 789456124		
	(7x3) + (8x7) + (9x1) + (4x3) +		
	(5x7) + (6x1) + (1x3) + (2x7) = 156		
	Then we divide 156 by $10 = 10.6$		
	We take the remainder (6) and		
	subtract it from 10. $10 - 6 = 4$		
	The 9th digit is 4 and matches		
	the calculated check digit. This passes		
	our edit.		
Approved By		V	
Approved By	Required for EFT TAB; recommended for	Х	
	enrollment section.		
	This is a 35-character alphanumeric free	X	
	text field. Required. Imbedded spaces		

New FISS Field added to PECOS	Validation	Added to PECOS	Not Added to PECOS
	are allowed. Special characters are		
	allowed.		
Name	Required for EFT TAB; recommended for		
	enrollment section.		
	This is a 35-character alphanumeric field.		
	Required.		
	- Required (Not SPACES)		
	- Left Justified		
	- Imbedded spaces are allowed		
	- Special characters are allowed		
Send to FISS Check Box	The Electronic Funds Transfer	Х	
	information will not be sent to FISS until		
	this enrollment is finalized. By checking		
	the "Send to FISS" checkbox, Primary		
	NPI/Medicare ID and associated EFT		
	information will be sent to FISS on the		
	nightly extract prior to finalization. Any		
	newly added primary Medicare ID		
	information on the enrollment		
	associated to the EFT record will not be		
	sent to FISS until the enrollment has		
	been finalized.		
Send to FISS Check Box	Add Send to FISS Check Box in both the	Х	
	EFT Tab and in the enrollment section.		
Audit Log	PECOS will be displaying Audit Log in	Х	
	both the EFT Tab and in the enrollment		
	section.		
	The Audit Log will include messages for	Х	
	all EFT fields and not just the FISS EFT		
	fields.		
	The Audit Log message will include	Х	
	historic and new changes to the EFT		
	fields.		

FISS File Structure:

* Record Type Values
"00" – Base Record
"01" - HOSPITAL-TYPE
"02" - MEDICARE-IDENTIFICATION
"03" - ENROLLMENT STATUS
"04" - PRACTICE-LOCATION
"05" - SPECIAL PAYMENT
"06" - L&T SUBMITTAL REASON
"07" - CHOW/ACQUISITION/MERGER/CONSOLIDATION
