I. GENERAL INFORMATION

A. Background: The CMS periodically updates the lists of Healthcare Common Procedure Coding System (HCPCS) codes that are subject to the consolidated billing provision of the Home Health Prospective Payment System (HH PPS). With the exception of therapies performed by physicians, supplies incidental to physician services and supplies used in institutional settings, services appearing on this list that are submitted on claims to Medicare contractors will not be paid separately on dates when a beneficiary for whom such a service is being billed is in a home health (HH) episode (i.e., under a home health plan of care administered by a home health agency). Medicare will only directly reimburse the primary home health agencies that have opened such episodes during the episode periods. Therapies performed by physicians, supplies incidental to physician services and supplies used in institutional settings are not subject to HH consolidated billing.

The HH consolidated billing code lists are updated annually, to reflect the annual changes to the HCPCS code set itself. Additional updates may occur as frequently as quarterly in order to reflect the creation of temporary HCPCS codes (e.g., 'K' codes) throughout the calendar year. The new coding identified in each update describes the same services that were used to determine the applicable HH PPS payment rates. No additional services will be added by these updates; that is, new updates are required by changes to the coding system, not because the services subject to HH consolidated billing are being redefined.

This recurring update notification provides the annual HH consolidated billing update effective January 1, 2024.

The following code is added to the HH consolidated billing non-routine supply code list in this update:

A9272 - wound suction, disposable, includes dressing, all accessories and components, any type, each.

The following codes are added to the HH consolidated billing therapy code list:

No update.

B. Policy: Section 1842(b)(6) of the Social Security Act requires that payment for home health services provided under a home health plan of care is made to the home health agency. This requirement is found in Medicare regulations at 42 CFR 409.100 and in Medicare instructions at publication 100-04, Medicare Claims Processing Manual, chapter 10, section 20.
