I. GENERAL INFORMATION

A. Background: In response to recent occurrences of vaping related disorders, the Centers for Disease Control and Prevention’s National Center for Health Statistics (CDC/NCHS) is implementing a new diagnosis code into the International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) for reporting vaping-related disorder effective April 1, 2020.

The Grouper Contractor, 3M Health Information Systems (3M-HIS), developed the new International Classification of Diseases Tenth Revision (ICD-10) Medicare Severity – Diagnosis Related Groups (MS-DRG) Grouper, Version 37.1, software package to accommodate this new code, effective for discharges on or after April 1, 2020. The GROUPER assigns each case into a MS-DRG based on the reported diagnosis and procedure codes and demographic information (that is age, sex, and discharge status). The ICD-10 Medicare Code Editor (MCE) Version 37.1, which is also developed by 3M-HIS, uses edits for the ICD-10 codes reported to validate correct coding on claims for discharges on or after April 1, 2020.

The ICD-10 MS-DRG V37.1 Definitions Manual Table of Contents and the Definitions of Medicare Code Edits V37.1 manual will be located on the MS-DRG Classifications and Software webpage (at https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/AcuteInpatientPPS/MS-DRG-Classifications-and-Software.html).

B. Policy: There is no policy change. Current policy is available in the Claims Processing Manual Publication (Pub.) 100-04, Chapter 3, Section 20.2.1 - Medicare Code Editor (MCE) and 20.2.2 - DRG GROUPER Program.
