Mental Health Visits via Telecommunications for Rural Health Clinics & Federally Qualified Health Centers

What's Changed: We revised this Article to show a legislative change about in-person visits and added modifier 93 for reporting audio-only mental health visits. Substantive changes are in dark red on pages 1-2.

Affected Providers

- Rural Health Clinics (RHCs)
- Federally Qualified Health Centers (FQHCs)

Action Needed

Make sure your billing staff knows about:
- Regulatory changes for mental health visits in RHCs and FQHCs
- Billing information for mental health visits done via telecommunications

Coding Requirements

CMS finalized regulatory language for mental health visits in RHCs and FQHCs in the CY 2022 Physician Fee Schedule (PFS) final rule. Effective January 1, 2022, you may provide mental health visits using interactive, real-time telecommunications technology.

RHCs and FQHCs can provide telecommunications for mental health visits using audio-video technology and audio-only technology. You may use audio-only technology in situations when your patient can’t access or doesn’t consent to use audio-video technology. You can report and get paid in the same way as in-person visits.

Audio-video visits: Use modifier 95 (Synchronous Telemedicine Service Rendered via Real-Time Interactive Audio and Video Telecommunications System).

Audio-only visits: Use new service-level modifier FQ or 93.

</table>

In-Person Mental Health Visit Requirements

These in-person visit requirements apply only to a patient getting mental health visits via telecommunications at home:
- There must be an in-person mental health visit 6 months before the telecommunications visit
- In general, there must be an in-person mental health visit at least every 12 months while the patient is getting services from you via telecommunications to diagnose, evaluate, or treat mental health disorders

NOTE: Section 4113 of the Consolidated Appropriations Act (CAA), 2023, delayed the in-person visit requirements under Medicare for mental health visits that RHCs and FQHCs provide via telecommunications technology. For RHCs and FQHCs, we won’t require in-person visits until January 1, 2025.

Exceptions

We’ll allow for limited exceptions to the requirement for an in-person visit every 12 months based on patient circumstances in which the risks and burdens of an in-person visit may outweigh the benefit. These include, but aren’t limited to, when:
- An in-person visit is likely to cause disruption in service delivery or has the potential to worsen the patient’s condition
- The patient getting services is in partial or full remission and only needs maintenance level care
• The clinician’s professional judgment says that the patient is clinically stable and that an in-person visit has the risk of worsening the patient’s condition, creating undue hardship on self or family
• The patient is at risk of withdrawing from care that’s been effective in managing the illness

With proper documentation, the in-person visit requirement isn’t applicable for that 12-month period. You must document the circumstance in the patient’s medical record.
