

Center for Clinical Standards and Quality/Quality Safety & Oversight Group

Special Focus Facility (SFF) Program

This webpage offers a list of nursing homes that have a history of serious quality issues and are included in a special program to stimulate improvements in their quality of care. Please take a minute to review this background information on our Special Focus Facility (SFF) program. The background here will help you be as informed as possible when you discuss your long-term care options with any nursing home that is listed here – and what they are doing to improve their quality of care.

Background

The Centers for Medicare & Medicaid Services (CMS) and State Agencies (SAs) inspect nursing homes on a regular basis to determine if they are providing the quality of care that Medicare and Medicaid require in order to protect and improve residents' health and safety. When nursing homes do not meet CMS' health care or fire safety standards, these instances are cited as deficiencies, and we require that the problems be corrected.

Most nursing homes have some deficiencies, with the average being six to seven deficiencies per standard health inspection. However, we have found that a minority of nursing homes have:

- More problems than other nursing homes (about twice the average number of deficiencies),
- More serious problems than most other nursing homes (including harm or injury experienced by residents), and
- A pattern of serious problems that have persisted over a long period of time (as measured over approximately three years before the date the nursing home was first put on the SFF list).

Although such nursing homes may periodically institute enough improvements to correct problems identified on one inspection, significant problems would often re-surface by the time of the next inspection. Such facilities with a “yo-yo” compliance history rarely address underlying systemic problems that give rise to repeated cycles of serious deficiencies, which pose risks to residents' health and safety. To address this problem CMS operates the SFF program.

How the SFF Program Works

The methodology for identifying facilities for the SFF program is based on the same methodology used in the health inspection domain of the Five-Star Quality Rating System. Results from the last two standard health survey cycles and the last three years of complaint survey performance are converted into points based on the number of deficiencies cited, and the scope and severity (S/S) level of those citations. The more deficiencies that are cited, and the more cited at higher levels of S/S, the more points are assigned. More information about this methodology can be found at <https://www.cms.gov/Medicare/Provider-Enrollment-and-Certification/CertificationandCompliance/downloads/usersguide.pdf>.

The facilities with the most points in a state then become candidates for the SFF program. The number of nursing homes on the candidate list is based on five candidates for each SFF slot, with a minimum candidate pool of five nursing homes and a maximum of 30 per State. SAs use this list to select nursing homes to fill the SFF slot(s) in their state. Additionally, because resident falls are a serious and important indicator of care quality, CMS recommends that SAs consider a facility's prevalence of falls when selecting SFFs from the candidate list.

See the list of candidates in Table D below.

Once a state selects a facility as an SFF, the SA, on CMS's behalf, conducts a full, onsite inspection of all Medicare health and safety requirements at least once every six months (no less than twice annually), and Life Safety Code (LSC) and Emergency Preparedness (EP) surveys at least annually or more as determined by the State or CMS. The SA recommends progressive enforcement (e.g., civil money penalty, denial of Medicare payment, etc.) until the nursing home either (1) graduates from the SFF program; or (2) is terminated from the Medicare and/or Medicaid program(s). While in the SFF program, CMS expects facilities to take meaningful actions to address the underlying and systemic issues leading to poor quality.

Once an SFF graduates or is terminated, each SA then selects a new SFF from a monthly list of candidates. CMS also informs candidate nursing homes of their inclusion on the SFF candidate list in the monthly preview of the Five-Star Quality Rating System. The facility will graduate from the SFF program once it has had two consecutive standard health surveys with 12 or fewer deficiencies cited at S/S of "E" or less on each survey (*these surveys must have occurred after the facility has been selected as an SFF*). To avoid situations where a facility remains an SFF for a prolonged period of time, CMS is establishing criteria that could result in the facility's termination from the Medicare and/or Medicaid programs. SFFs with deficiencies cited at Immediate Jeopardy on any two surveys while in the SFF program, will be considered for discretionary termination.

For more information on the SFF program, please see CMS memorandum [QSO-23-01-NH](#).

How Can You Use This Information?

If you are considering admission to a nursing home included on this list you may want to:

- Visit the *Care Compare* website to view information about the nursing home's star ratings, staffing, quality measures, and inspection results (see <https://www.medicare.gov/nursinghomecompare/search.html>).
- Visit the nursing home. Talk to staff, residents, physicians, and other families. Ask the nursing home staff what they are doing to improve the quality of care for residents in the nursing home.
- Call the SA (agency contact information is posted on *Care Compare*) to find out more about the nursing home.
- If the nursing home is an SFF, look at the length of time that a nursing home has been on the SFF list. This is particularly important if the nursing home has been an SFF nursing home for more than 18-24 months since such nursing homes are closer to either graduating (due to improvements) or ending their participation in Medicare and Medicaid.
- Call your local State Ombudsman, Administration on Aging, and local groups to find out more about the nursing home.

If you currently reside in an SFF nursing home, please know that this home is being closely monitored and will be inspected twice as often as other nursing homes. You may also direct any questions you have to the contacts above.

How to Interpret the Tables

Below we list nursing homes in four (4) different categories:

Table A – Current SFF Facilities: Nursing homes that are currently in the SFF program. The date of the most recent inspection is posted. Results of the most recent inspection are noted as met or not met. “Met” means the SFF facility met the graduation criteria on their most recent survey and is on track for graduation. SFF facilities must meet the graduation criteria on two consecutive standard health surveys in order to be eligible for graduation. “Not met” means the SFF facility did not meet the graduation criteria on their most recent survey and must restart the process towards graduation.

Table B – Facilities That Have Graduated from the SFF Program: These nursing homes sustained improvement for about 12 months (through two consecutive standard health surveys) while in the SFF program. CMS lists their names as “graduates” for three years after they graduate so that anyone who has been tracking their progress will be informed. “Graduation” does not mean that there may not be problems in the quality of care but does generally indicate an upward trend in quality improvement compared to the nursing home’s prior history of care.

Table C – No Longer in Medicare and Medicaid: These are nursing homes that were either terminated by CMS from participation in Medicare and Medicaid within the past few months or voluntarily chose not to continue such participation. In most cases, the nursing homes will have closed, although some nursing homes that leave Medicare later seek to show better quality and re-enter the Medicare program after demonstrating their ability to comply with all Federal health and safety requirements.

Table D – SFF Candidate list: These are nursing homes that qualify to be selected as an SFF. The number of nursing homes on the candidate list is based on five candidates for each SFF slot, with a minimum candidate pool of five nursing homes and a maximum of 30 per State.

Important Note about Information Delays

The SAs are responsible for entering survey information into CMS’ databases and providing updates as needed. Every attempt is made to assure the accuracy and timeliness of the information on the list. However, data lags can occur between the completion of an inspection and the posting of information on this list. We advise interpreting this information cautiously and supplementing it with information from the ombudsman's office, the SA, or other sources.

Table A: Current SFF Facilities									
Provider Number	Facility Name	Address	City	State	Zip	Phone Number	Most Recent Inspection	Met Survey Criteria	Months as an SFF

“Met” means the SFF facility met the graduation criteria on their most recent survey and is on track for graduation. SFF facilities must meet the graduation criteria on 2 consecutive surveys in order to be eligible for graduation. “Not met” means the SFF facility did not meet the graduation criteria on their most recent survey and must restart the process towards graduation. If the most recent inspection and met survey criteria is not listed that means the facility is “New” and the facility is awaiting their first survey. For additional information please see [How the SFF Program Works](#) above.

Table B: Facilities That Have Graduated from the SFF Program
