News Releases

* November 2 - **CMS Finalizes Physician Payment Rule that Advances Health Equity.** Final policies will expand behavioral health services, advance the President’s Cancer Moonshot, support family caregivers, and accelerate value-based care. Today, the Centers for Medicare & Medicaid Services (CMS) announced it is finalizing policies to support primary care, advance health equity, assist family caregivers and expand access to behavioral and certain oral health care. These policies are included in the calendar year (CY) 2024 Medicare Physician Fee Schedule (PFS) final rule, which also provides payment for principal illness navigation services to help patients and their families navigate cancer treatment and treatment for other serious illnesses, supporting the Biden-Harris Administration’s Cancer Moonshot mission to accelerate the fight against cancer.

* November 2 - **CMS Makes Hospital Prices More Transparent and Expands Access to Behavioral Health Care.** Final Rule Fills Gaps in Behavioral Health Services Under Medicare to Improve Health Outcomes. Today, the Centers for Medicare & Medicaid Services (CMS) announced it is expanding access to behavioral health services for people with Medicare through coverage of intensive outpatient services and that it is making it easier for the public to learn what a hospital charges for items and services through improved hospital price transparency requirements. These policies are included in the calendar year (CY) 2024 Hospital Outpatient Prospective Payment System (OPPS) and Ambulatory Surgical Center (ASC) final rule with comment period released today, which also updates payment rates by 3.1% for hospital outpatient and ASC services for calendar year 2024.

* November 3 - **CMS Roundup (Nov. 3, 2023).** Today, the Centers for Medicare & Medicaid Services (CMS) provides an at-a-glance summary of news from around the agency.

* November 3 - **The Biden-Harris Administration is taking actions to improve the health of rural communities and help rural health care providers stay open.** The Biden-Harris Administration is taking actions to improve the health of rural communities and help rural health care providers stay open.
*November 6- Biden-Harris Administration Proposes to Protect People with Medicare Advantage and Prescription Drug Coverage from Predatory Marketing, Promote Healthy Competition, and Increase Access to Behavioral Health Care in the Medicare Advantage Program. Today, the Biden-Harris Administration is proposing important steps to strengthen Medicare Advantage and the Medicare Prescription Drug Benefit Program (Part D). As part of his Bidenomics agenda, President Biden has worked to increase competition in the health care industry and other sectors, lower costs for families, and make sure every American has access to affordable, high-quality health care.

*November 6- HHS Announces Top Health Centers for Clinical Quality Excellence. Today, the U.S. Department of Health and Human Services (HHS), through the Health Resources and Services Administration (HRSA), announced the top 10 percent of health centers receiving a Gold Health Center Quality Leader badge for their achievements in improving health outcomes and providing high-quality care for patients in rural and underserved communities. The digital badges, part of the Community Health Quality Recognition (CHQR) badge program, honor the health centers across the country that have attained the best overall clinical quality performance.

*November 7- HHS Secretary Becerra’s Statement on the Bipartisan Confirmation of Monica Bertagnolli for NIH Director. Today, U.S. Department of Health and Human Services (HHS) Secretary Xavier Becerra released the following statement on the Senate’s bipartisan vote to confirm Dr. Monica Bertagnolli as the Director of the National Institutes of Health (NIH).

*November 8- Biden-Harris Administration Launches ‘Birthing-Friendly’ Designation on Web-Based Care Compare Tool. User-friendly tool helps identify hospitals and health systems committed to providing high-quality maternity care. Today, the Centers for Medicare & Medicaid Services (CMS) will begin displaying the ‘Birthing-Friendly’ designation icon on CMS’s Care Compare online tool. CMS created the new designation to identify hospitals and health systems that participate in a statewide or national perinatal quality improvement collaborative program and that implement evidence-based care to improve maternal health. The public can use the Care Compare tool — along with a complementary interactive map — to find a hospital or health system with the ‘Birthing-Friendly’ designation in their area. Today’s action is one of many key efforts being implemented as part of the White House Blueprint for Addressing the Maternal Health Crisis and is part of Vice President Harris’ nationwide call to action to reduce maternal mortality and morbidity. It also meets a milestone in the CMS Maternity Care Action Plan.

*November 8- Readout of HHS Secretary Becerra’s Roundtable on Contraception Access. U.S. Department of Health and Human Services (HHS) Secretary Xavier Becerra hosted a roundtable to hear from medical providers, reproductive health experts, and data scientists to understand barriers to reproductive health research following the Dobbs v. Jackson Women’s Health Organization decision. The group shared insights about the impact of Dobbs on contraception
access and use, best practices for person-centered service delivery, and innovation in contraceptive methods.

*November 6- Important New Changes to Improve Access to Behavioral Health in Medicare. Meena Seshamani, MD, PhD, and Douglas Jacobs, MD, MPH. As we emerge from the COVID-19 public health emergency, it is increasingly clear that we must swiftly improve access to effective mental health and substance use disorder (collectively called behavioral health) treatment in
order to meet the growing demand for such services. For older Americans and people with disabilities enrolled in Medicare, many individuals have felt the effects of worsening depression and anxiety or have struggled with the use of substances like opioids or alcohol. As doctors, we have seen first-hand how behavioral health treatment can improve the health and well-being of our patients. The Centers for Medicare & Medicaid Services (CMS) is pleased to announce new finalized policies that create some of the most significant changes to promote access to behavioral health in the history of the Medicare program.
