

## ACCOMPANYING SOCIALS

### **CMS Announces Enhanced Quality Innovation Network-Quality Improvement Organization Program**

#### **LinkedIn and Facebook:**

##### **Major Healthcare Quality Breakthrough**

CMS just launched the QIN-QIO 13th Statement of Work - the biggest transformation in healthcare quality improvement!

##### **What's Revolutionary:**

State-of-the-art technology platform with real-time analytics, customer-service model that puts YOUR needs first, 24/7 access to quality improvement tools and streamlined processes that reduce administrative burden

##### **For Healthcare Providers:**

- Immediate access to quality metrics (no more waiting!)
- Flexible technology that evolves with your needs
- Face-to-face support when you need it most
- Partnership approach vs. compliance requirements

7 consolidated regional QIN-QIOs are rolling out nationwide to support eligible hospitals, nursing homes, and outpatient clinical practices - especially those serving under-resourced locations.

This isn't just another program update - it's CMS evolving from oversight to true partnership! Learn more [here](#)
