### Transforming Healthcare Quality: The CMS QIN-QIO 13th Scope of Work

#### LinkedIn and Facebook:

The Centers for Medicare & Medicaid Services just launched the QIN-QIO 13th Scope of Work - a game-changing initiative that will transform healthcare quality improvement across America!

#### What This Means:

- Better coordination between hospitals, nursing homes, and outpatient clinician practices
- Fewer preventable hospital readmissions
- Higher rates of preventive screenings
- More patient and family involvement in healthcare decisions

#### Key Features:

- ✓ Customer-focused approach that addresses real provider needs
- ✓ Evidence-based best practices across five key areas including chronic disease, patient safety, emergency preparedness, behavioral health and care coordination
- ✓ 7 regional organizations serving as single points of accountability

This comprehensive program is already working with thousands of eligible healthcare facilities nationwide to deliver measurable improvements in patient care and safety.
