# CMS Technical Reference Architecture – Java EE Application Development Guidelines Supplement (Decommissioned)

Version 2.0\_D

May 13, 2015

## Notice of Decommission

The guidance and standards prescribed by the *CMS Technical Reference Architecture – Java EE Application Development Guidelines Supplement*, Version 2.0, have been superseded by the *CMS TRA – Application Development Guidelines Supplement Supplement*, Version 1.0, published May 13, 2015.

On May 13, 2015, by decision of the Chief Technology Officer, in accordance with the process and required documentation established in the *CMS TRA – Architecture Change Request Supplement*, this supplement was decommissioned. The decommission decision is available at: <https://share.cms.gov/office/ois/CTO/SitePages/TRA.aspx>.
