

Continuing Education Activity

Title: The Evolution of Care Recommendations for Older and Complex Patients with Diabetes: Implications for Measuring Quality and Attaining Value

Presented by: Elbert Huang

Date: December 17, 2013
Estimated Time: 1 Hour 30 minutes
Course Format: In-person Presentation
Course Fee: Free

Activity Goal/Description:

This webinar will cover the following information:

- Traditional view of diabetes care and quality of care
- Recent clinical trials and observational studies
- Evolution of care recommendations for older adults with diabetes
- Implications for measuring quality of care
- Implications for attaining value

Target Audience: Physicians and other Health Care Professionals

Activity Learning Objective(s)

By the end of this presentation, learners will be able to correctly identify recommendations that have emerged from clinical trials, for measuring quality of care for older, complex diabetes patients.

Activity Credit:

Accreditation Council for Continuing Medical Education (ACCME)

ACCME Designation Statement

The Centers for Medicare & Medicaid Services designates this **enduring material** for a maximum of 1 *AMA PRA Category 1 Credit™*. Physicians should only claim credit commensurate with the extent of their participation in the activity. Credit for this course expires December 17, 2014.

IACET International Association for Continuing Education and Training (IACET)

[IACET Accreditation Statement](#)

IACET Designation Statement

The Centers for Medicare & Medicaid Services (CMS) is authorized by IACET to offer .1 CEU for this program. CEU will be awarded to participants who meet all criteria for successful completion of this educational activity. CEU credit for this course expires December 17, 2016.

Authors and Disclosures:

All planners and developers of this activity have signed a disclosure statement indicating any relevant relationships and financial interests. This activity was developed without commercial support.

Dr. Huang has nothing to disclose.

Dr. Huang is Associate Professor of Medicine, Director of the Center for Translational and Policy Research of Chronic Diseases, and Associate Director of the Chicago Center for Diabetes Translation Research at the University of Chicago. From 2010-2011, he served as a Senior Advisor in the Office of the Assistant Secretary for Planning and Evaluation, Department of Health and Human Services.

Dr. Huang is a general internist who studies clinical and health care policy issues at the intersection of diabetes, aging, and health economics. His main research focus is in the area of medical decision making for elderly patients with type 2 diabetes where uncertainty exists regarding how to best individualize diabetes treatments based on clinical parameters and patient preferences. Over the past decade, Dr. Huang has established one of the most active research programs in geriatric diabetes in the country.

Hardware and Software Requirements: The CMS Grand Rounds Series is accessible using the following browsers: Internet Explorer 6.x or higher, Firefox 2.x or higher. Certain educational activities may require additional software to view multimedia, presentation or printable versions of their content. These activities will be marked as such and will provide links to the required software. That software may be: Macromedia Flash, Adobe Acrobat, or Microsoft PowerPoint.
