CMS has received a number of questions regarding the CY2010 Part C Reporting Requirements through the dedicated email address and from various other sources. To address each question in a way that all Part C Sponsors can benefit from the response, CMS is pleased to release an update to the Part C Reporting Requirements Technical Specifications. This update seeks only to provide clarifying information and in no way changes the actual reporting requirements as they were approved under the OMB PRA process. This document is posted on the external CMS website at the following link:

Comments or questions on all Part C Reporting Requirements should continue to be sent via email to [partcplanreporting@cms.hhs.gov](mailto:partcplanreporting@cms.hhs.gov) and include the title of the specific element to which your question applies in the subject line. Please be aware that due to the volume of questions this mailbox receives, individual responses to questions may not be possible. Questioners should look to the next release of the Technical Specifications to provide the requested clarifying information.
