

## CMS Center for Consumer Information & Insurance Oversight (CCIIO), State-based Marketplace Public Use Files (SBM PUF) Data Dictionary for Network PUF

### 1. Overview of the Network PUF

The Centers for Medicare & Medicaid Services (CMS) Center for Consumer Information and Insurance Oversight (CCIIO) is releasing the State-Based Marketplace (SBM) PUF in order to improve the transparency and increase access to the SBM data. The SBM PUF includes data on Qualified Health Plans (QHPs) and Stand-alone Dental Plans (SADPs) offered in states which operate their own Marketplaces that do not rely on the federal information technology platform for QHP eligibility and enrollment functionality. This includes states which operate their own Small Business Health Options Programs (SHOP).

The Network PUF (Ntwrk-PUF) is one of the six files that make up the SBM PUF. The Ntwrk-PUF contains issuer level data identifying provider network URLs. These data originate from the Network ID template (i.e., template field), an Excel-based form used by issuers to describe their plans in the QHP/SADP application process, and were provided by the National Association of Insurance Commissioners (NAIC) by extracting the information from their System for Electronic Rate and Form Filing (SERFF).

This data dictionary describes the variables contained in the Ntwrk-PUF file for each SBM. Each record relates one issuer's provider network. The Ntwrk-PUF is available for SBMs for plan year 2016.
