

CY 2023 Proposed Rule Hospital Outpatient PPS Cancer Hospital Payment Adjustment File

This file contains provider-level data used to determine the target payment-to-cost ratio (PCR) for the CY 2023 proposed rule cancer hospital adjustment using cost reports from the April 2021 OPSF. These data are from hospital cost report extracts predominately from fiscal years 2020 and 2021. Based on these data, a target PCR of 0.84 would be used to determine the CY 2023 cancer hospital payment adjustment; however, as discussed in the CY 2023 OPSS/ASC proposed rule, we are proposing to apply a target PCR of 0.87. Therefore, the payment amount associated with the cancer hospital adjustment to be determined at cost report settlement would be the additional payment needed to result in a PCR equal to 0.87 for each cancer hospital.

Proposed Rule CY 2023 Hospital Outpatient PPS
Cancer Hospital Payment Adjustment File

Column	Title	Description
A	Provider Number	Six character provider number. In general, the first two digits identify the State.
B	Cost Report FY Begin	Beginning date of the hospital cost report used in the analysis.
C	Cost Report FY End	Ending date of the hospital cost report used in the analysis.
D	Medical and Other Services Costs	Total hospital costs for OPSS services as reported on the cost report.
E	PPS Payments Including Outliers	Total payments to hospital for OPSS services as reported on the cost report.
F	Cancer Hospital	Identifies cancer hospitals with a 1; all others providers are 0.
