

**CENTERS FOR MEDICARE & MEDICAID SERVICES**

---

**DATE:** July 24, 2026

**TO:** All Medicare Advantage, Prescription Drug Plan, and 1876 Cost Plan Organizations

**FROM:** Jon G. Booth, Director  
Web & Emerging Technologies Group  
Office of Communications

Vanessa S. Duran, Director  
Medicare Drug Benefit and C & D Data Group  
Center for Medicare

**SUBJECT:** Contract Year (CY) 2027 Drug Pricing and Plan Benefit Previews

Organizations will use the Health Plan Management System (HPMS) to preview their CY 2027 drug pricing and plan benefits prior to the release of the Medicare Plan Finder (MPF) on October 1, 2026. The plan preview windows will be open concurrently to provide a more comprehensive preview of the data being published on MPF.

- **Preview 1: August 5-11, 2026**
  - Using drug pricing data from the second test submission window.
  - Using plan benefit data pulled no sooner than July 27, 2026.
- **Preview 2: September 8-11, 2026**
  - Using drug pricing data from the third test submission window.
  - Using plan benefit data pulled no sooner than September 3, 2026.

For both windows, the preview functionality will open at 6:00 a.m. ET on the first day and close at 11:59 p.m. ET on the last day. The preview functionality can be accessed using the following navigation paths:

*HPMS Home Page > Plan Bids > Plan Data Previews > Benefits Preview*

*HPMS Home Page > Plan Bids > Plan Data Previews > Drug Pricing Preview*

**Changes for CY 2027 Plan Benefits Preview**

---

The benefit preview will reflect MPF user interface changes, such as the:

- Addition of the following supplemental benefits to the "More Extra Benefits" section:
  - Nutritional/Dietary Benefit;
  - Additional Sessions of Smoking and Tobacco Cessation Counseling;
  - Enhanced Disease Management;
  - Telemonitoring Services;
  - Remote Access Technologies;
  - In-Home Safety Assessment; and
  - Medical Nutrition Therapy (MNT)
- Display of the benefit types offered as part of the 14c4 fitness benefit:
  - Activity Tracker
  - Physical Fitness
  - Memory Fitness
  - Fitness Equipment or Kit
- Display of the benefit types offered as part of the 14c22 caregivers benefit:
  - Respite Care
  - Caregiver
- Improved display of hearing aid coverage for plans that cover either prescription or over-the-counter (OTC) hearing aids, but not both.
- Enhanced presentation of the maximum out-of-pocket (MOOP) costs for zero-dollar D-SNPs.
- Cleanup of benefit preview comment categories that no longer apply.

### **Changes for CY 2027 Drug Pricing Preview**

---

- Users will be able to filter the preview reports to display only records that have comments.

### **Data Limitations During the Preview Windows**

---

- The Part D drug deductible will not display as \$0 during the plan benefit preview for Dual-Eligible Special Needs Plans (D-SNP). On the medicare.gov website, MPF will consider the low-income subsidy eligibility of the beneficiary based on their data entry.
- Information provided in the PBP software "note" fields will not be displayed on MPF.
- The 2027 Fee-for-Service (FFS) values are not available yet. As such, the preview will use the 2026 FFS values (e.g., the Part B premium will display as \$202.90).
- Direct links to each plan's Evidence of Coverage (EOC), Summary of Benefits (SB), and formulary will not be able for preview.

## Preview Guidance

---

- Be sure to participate in the first preview window to maximize the time in which issues can be identified and corrected prior to the second preview window, where possible.
- The drug pricing presented in MPF is pulled from Part D pricing submissions in HPMS. The first plan preview window (August 5-11, 2026) will use the drug pricing data submitted during the second CY 2027 test window, while the second plan preview window (September 8-11, 2026) will use the drug pricing data submitted during the third CY 2027 test window. If there is an issue with drug pricing, organizations should ensure their drug pricing submissions accurately reflect their drug costs.
- In large part, the plan benefits presented in MPF are pulled from PBP submissions in HPMS. If there is an issue with PBP data that is also used by MPF, organizations should report the issue during the plan preview and request a plan correction in HPMS. CMS will review each plan correction request and provide a disposition.
- CMS will only accept plan correction requests between **September 4-24, 2026**. As a reminder, CMS will only permit changes to the PBP that align with the corresponding Bid Pricing Tool (BPT) for that plan. No changes to the BPT are permitted during the plan correction period.
- Organizations that submit plan corrections may be subject to compliance action and will be suppressed in MPF until the issue has been fully corrected.
- Certain plan data displayed in MPF can be easily and quickly updated in HPMS at any time. Some examples include plan names, website addresses, and customer service phone numbers. Organizations are required to log into HPMS and make the necessary updates as soon as possible. **Appendix A** contains guidance on how to update these data in HPMS.

## User Access and Support Resources

---

To access the plan benefit and drug pricing preview functionality, each user must have the following:

1. An active CMS user ID with HPMS production access;
2. One or more contract numbers assigned to the user ID in HPMS; and
3. The following HPMS access types assigned to the user ID (depending upon the user's need):
  - MPF Benefits Preview
  - Drug Pricing Preview - Plan

General HPMS user access guidance is available at the following website:  
<https://www.cms.gov/about-cms/information-systems/hpms/user-id-process>

For further assistance with the CY 2027 plan benefit and drug pricing previews, organizations are encouraged to use the help resources outlined in the table below:

| Support Resource                                                                         | Contact Information                                                                                                                                      |
